THE COMMONWEALTH OF MASSACHUSETTS

FIFTY EIGHTH ANNUAL REPORT

DEPARTMENT OF PUBLIC SAFETY

1010 Commonwealth Avenue

Boston, Massachusetts

I have the honor of submitting the fifty eighth annual report of the Department of Public Safety for the fiscal year ending June 30, 1979, made in compliance with the provisions of General Laws Chapter 147, section 1.

The following is a summary of the activities of the Division of State Police, Inspection, Fire Prevention, Boxing Commission and various Boards and Bureaus of the Department for the fiscal year from July 1, 1978 to June 30, 1979.

DEPARTMENT OF PUBLIC SAFETY

This forward is intended to highlight some of the more outstanding features of the past year. The purpose of the Annual Report is to gather essential information in an uniform fashion. The data includes reports from all of the branches of the Department of Public Safety and gives detailed accounts of the activities performed by its members. The information is collected and stored in a central report for future reference and use within the Department. For specific reports on individual divisions, please refer to the Table of contents.

DIVISION OF STATE POLICE

Edward J. King was sworn in as Governor of the Commonwealth of Massachusetts on January 4, 1979. John F. Kehoe Jr. resigned as Commissioner of Public Safety and Dennis M. Condon took office on September 6, 1978 as Commissioner of Public Safety. Deputy Commissioner Fred I. Lamson retired on May 25, 1979 ending thirty eight years of public service. Frank J. Trabucco continued as Colonel and Deputy Superintendent, assisting in the administration of the Division of State Police.

The fiscal year was a tragic time for the State Police. Two officers were wounded in an exchange of gunfire during a drug investigation. One officer was stabbed while transporting a prisoner. The most tragic of all was the loss of Trooper Donald Shea who died as the result of injuries sustained avoiding pedestrians in the roadway while responding to a call for service.

A recruit examination was administered to 7,300 applicants at various locations throughout the Commonwealth with an emphasis on recruiting minorities and females into the State Police.

HEADQUARTERS SECTION
1010 COMMONWEALTH AVENUE
BOSTON, MASSACHUSETTS
(617) 566-4500

COMMANDED BY
MAJOR GEORGE A. KIMBALL

The Headquarters Section is made up of the Staff Inspection, Research and Development, Internal Affairs, and Public Relations Units; to aid the Commissioner/Superintendent and the Colonel/Deputy Superintendent in the administration of the Department of Public Safety while providing the necessary planning, exposure and controls.

STAFF INSPECTIONS UNIT
450 WORCESTER ROAD
FRAMINGHAM, MASSACHUSETTS 01701
(617) 879-5051

COMMANDED BY
CAPTAIN ROBERT S. MAYO

The Staff Inspection Unit is an administrative function of the Commissioner's Office responsible for all staff inspections within the State Police, and the periodic analysis and determination of the operational readiness of the State Police in whole or in part.

The Staff Inspection Unit was responsible for the inspections of Troops D, E, and F.

RESEARCH AND DEVELOPMENT UNIT
1 Ashburton Place, Room 1319
Boston, Massachusetts 02108
(617) 727-3784

Lieutenant Philip J. Reilly
Trooper Raymond G. Jones

The Research and Development Unit is an administrative function of the Commissioner's Office assigned to carry out all planning projects to ensure continuous operational readiness of the Division, and research and develop new technical and administrative programs which will enhance the future organizational growth of the State Police.

The Research and Development Unit was responsible for the handling of (39) requests for information from other states, (18) from within the Department of Public Safety, (6) from other Government agencies, and (2) from within Massachusetts.

The Unit did not participate in the annual State Police Planning Officer's Conference.

The Unit did implement an affirmative action program along with a full time Minority Recruitment Officer to recruit minorities and females for future training academy classes.

INTERNAL AFFAIRS UNIT
450 Worcester Road
Framingham, Massachusetts 01701
(617) 879-5051

Commanded by:

William P. Lennon
Staff Sergeant
Acting

STAFF

- 1 - Staff Sergeant
- 1 - Sergeant

PURPOSE

To investigate complaints against members of the Massachusetts State Police appointed under General Law, Chapter 22, Section 9A, and any other investigation assigned by the Commissioner and/or the Deputy Superintendent.

ACTIVITIES

July 1, 1978 thru June 30, 1979

Between the above dates the Internal Affairs Unit has received and investigated 38 cases. Of these, 34 were complaint-type investigations concerning departmental personnel. The results of the 34 complaint cases were as follows:

SUSTAINED - 12 cases where there was found evidence to support charges against a member for violation(s) of one or more of the Rules and Regulations

NOT SUSTAINED - 19 cases where there was insufficient evidence found to uphold the charging of a member for a violation of the Rules and Regulations

UNFOUNDED - 3 cases where there was found to be no basis for a complaint against a member

If after the investigation of a complaint the allegations against the member are sustained, disciplinary action usually follows in the form(s) of:

- a. Verbal or written reprimand, or
- b. Loss of time, suspension, or
- c. Discharge, or
- d. Criminal complaint.

The remaining 4 cases investigated by the Unit had to do with:

- a. Background investigation of the final three applicants for the position of Chief of Campus Security of the Framingham State College
- b. Investigation of alleged larcenies by a mechanic at State Police, Holden
- c. Violations of Departmental Towing Procedures by Brayman's Automotive Service in Attleboro
- d. Background investigation of Miss Katherine J. Crowley of Medway, Massachusetts for the Arkansas State Police for position of State Police Officer in their State.

NOTATION

Presently the Unit is awaiting assignment of a Commissioned Officer to command the Unit and another non-commissioned officer to bring the Unit to its full complement.

Public Relations Unit

The Public Relation Unit of the Massachusetts State Police primary purpose is the process of familiarizing the citizens of the Commonwealth with the policies, services, and actions of the Department of Public Safety, Division of State Police. As a result of this important purpose the following activity has been recorded.

48	Unit Speaking Assignments
457	Speaking Assignments processed for Troops
72	News Media personal contacts
1500	Telephone inquiries from the public
283	News Media IDs processed
152	News Photographers IDs processed
9	Department IDs processed
12	Interdepartmental IDs processed
34	Formal Department Press Releases issued
531	Informational inquiries for newspapers, books and other periodicals
438	Informational inquiries for radio and television
15	Press conferences arranged
26	Inquiries processed for researchers
	Published and edited informational brochures covering various activities of the Division in addition to recruiting and highway safety.

Coordinated with the Executive Office and the Personnel Unit the publicity for the Entrance Examination held in May of the past fiscal year.

Coordinated with the Executive Office and the Former Troopers Association the Annual Memorial Service held in June at the State Police Academy.

Provided technical assistance to the Executive Office and Former Commissioner William F. Powers for the State Police History Book, "French and Electric Blue" publication program at which over 400 past, present members their families and friends attended this historic chapter in the long history of the Massachusetts State Police.

MASSACHUSETTS STATE POLICE AIR WING
MUNICIPAL AIRPORT
NORWOOD, MASSACHUSETTS
02062
(617) 769-4777

SERGEANT THOMAS J. FLAHERTY
WING COMMANDER

PILOTS ASSIGNED
CORPORAL DONALD C. CODY
TROOPER CLEMENT G. TOURIGNY

The State Police Air Wing is housed in hangar #5 at Norwood Airport. The purpose of the Air Wing is to provide the citizens of the Commonwealth, in conjunction with ground units, aerial services intrajffic enforcement, criminal surveillance, criminal searches, emergency medical transportation, as well as, transportation in situations where time is of a critical factor. Aerial observation and command platform is provided at the scenes of civil disturbances and disasters.

The helicopter is made available to all police agencies and political subdivisions of the Commonwealth for law enforcement and/or emergency transportation in life threatening or life saving situations.

From July 1, 1978 to June 30, 1979 the helicopter was flown four hundred fifty seven hours (457). The helicopter was out of service during the period of September 23, 1978 to December 10, 1978 due to maintenance funding. A daily traffic surveillance was flown over the major highway network in and around metropolitan Boston. The helicopter was utilized by fifty nine (59) state and local political subdivisions. These uses included searches for missing persons, murder victims, robberies, disaster scenes, civil disturbances, drownings, personnel transportation, drug enforcement, high speed chases, and aerial photography.

FUNCTIONS PERFORMED IN HELICOPTER FISCAL 1979

Included in the peak hour traffic patrols are the accidents, disabled motorist, road and traffic conditions reported to the ground units and sub-stations.

ACTIVITIES

Weekend Supplementary Patrols (Federal Funded)

Purpose - to supplement regular patrols during peak hours
at designated areas of responsibility when necessary and needed.

Inception of "55" Teams Nov. 1, 1978 through June 30, 1979

Issuance of new citation books to be used in accordance with the Uniform Traffic Act, effective January 1, 1979. Comply with Section 41 of Chapter 478 Acts of 1978. Offenses falling under the Uniform Citation Act handled as "non-criminal" unless violator requests otherwise or until a ten day period has elapsed without the offender contacting the court.

Medal of Merit issued to member of STOP Team Troop "D"
Trooper Nelson N. Ostiguy #1100

Incident of November 16, 1978 involving a hostage situation in West Bridgewater Square. Officers from Mass. State Police and surrounding towns police departments were at the scene and heavily armed. In the course of events, Trooper Ostiguy of the Troop "D" STOP Team was instructed to immobilize the kidnapper at the first opportunity in the safest manner. A tremendous pressure was exerted on Trooper Ostiguy as he realized his actions would determine the outcome of the situation. He performed his duty in a calm, precise manner and in the highest tradition of a State Police officer.

"55" TEAM

The scope of the Troop "D" "55" Team was broadened November 1, 1978 with the addition of 12 officers to the original team. The team consisting of 19 officers provides traffic enforcement throughout the Troop.

The team is further utilized mornings and afternoons during commuter hours to provide greater visibility and patrol coverage along the Rte's 3-24-128-belt. The accident rate and response time has been noticeably reduced with these additional patrols.

The following statistics are submitted to show traffic enforcement productivity of the Troop "D" "55" Team for the period of Nov. 1, 1978, through June 30, 1979:

ARRESTS	COMPLAINTS	WARNINGS	EQUIP TAGS	ASSISTS	ACCIDENTS
36	6513	16,087	120	1130	24

Included in the above statistics are all traffic stops, warnings, complaints, equipment tags, assists, and accidents reported by the Troop "D" "55" Team officers during the period of November 1, 1978, through June 30, 1979.

EASTERN FIELD OPERATIONS

Troop "F", Logan International Airport, East Boston, Mass. 02128

Commanded by: Captain Michael J. Noone, #501

STAFF:

- 1 Captain
- 3 Lieutenants
- 6 Staff Sergeants
- 3 Sergeants
- 4 Corporals
- 44 Troopers

TOTAL COMPLEMENT: 61

- 43 Officers assigned line functions at the airport
- 5 Officers assigned executive and administrative duties
- 2 Plainclothes officers
- 3 Officers assigned to docks and bridges
- 4 K-9 officers
- 1 Court officer
- 1 Hackney officer
- 1 Garage officer
- 1 Officer assigned to ramps

Included in the above are 5 SCUBA divers, 1 member of the Massachusetts State Police S.T.O.P. team, 2 K-9 officers with explosive detection dogs, 1 K-9 officer with marijuana detection dog and 4 officers trained as explosive technicians.

The Massachusetts State Police officers assigned to Troop "F" have the responsibility for the overall policing of Logan International Airport including all the movement of all traffic in and out of the airport and the enforcement of parking violations on Massport properties including Castle Island, the Fish Pier, Boston Army Base, Moran Terminal, Hoosac and Mystic Piers, East Boston Piers as well as the Tobin Bridge, Hanscom Field and all adjoining properties owned or controlled by the Massachusetts Port Authority. Officers assigned to Troop "F" must also enforce all Federal and State laws in addition to the rules and regulations of the Massachusetts Port Authority and coordinate our activities with the various Federal agencies that have an interest in the Port Authority operation. We also work closely with the United States Secret Service and State Department by protecting United States and Foreign persons requiring this protection. The State Police also examine and issue authorization for persons and vehicles to operate on the truck lanes, ramps and aprons of the airfield. The State Police also photograph and issue identification backdrops which identify authorized persons to be in areas restricted to the general public. Due to the recent accelerated terrorist activities in the Middle East, the State Police are providing added security on the flight from Boston to Israel by providing extra officers in various locations prior to takeoff and by the trooper with the explosive detection dog checking the mails and luggage carried on this daily flight.

Office of Staff Operations
1010 Commonwealth Avenue
Boston, Massachusetts
(617) 566-4500

Commanded by

Lieut. Colonel Robert C. Woodward

The Office of Staff Operations includes the Bureau of Administrative Services and the Bureau of Technical Services, and is responsible for all staff operational services under his command; planning, directing and coordinating the activities of all personnel under his command concerning administrative, technical and crime laboratory matters.

The operations Officer acts as principal liaison between his Office and all other agencies and offices, both within and without the State Police.

Bureau of Administrative Services
1010 Commonwealth Avenue
Boston, Massachusetts
(617) 566-4500

Commanded by

Major Robert E. Hunt

The Bureau of Administrative Services

The Fiscal and Supply Sections work closely with one another to provide the necessary equipment and supplies for the entire Division of State Police and to provide proper maintenance for buildings under the control of the Division. The Fiscal Section is also responsible for making up the Division of State Police Budget and seeing that it is implemented in the proper manner. The Fiscal Section initiated a special section on a trial basis to Administer Fleet Operations and it has proven to be a more efficient method than used in the past. We anticipate making a permanent "Fleet Section" within the Bureau in Fiscal 1978.

The Personnel Section it keeps and maintains personnel records for members of the Division of State Police. It plans and administers recruit and promotional examinations for the Uniformed members of the State Police. The Blood program and pay incentive procedures along with numerous correspondence from other sources are handled by this Section.

The Training Section is responsible for recruit and In-service training for the Division of State Police. It develops and implements training programs for Municipal Police Officers, Campus Police and a host of other specialized training for State and Local Law Enforcement Agencies.

The Fleet Section is responsible for the purchase, operation, and maintenance of all State Police vehicles, garages, and related facilities. Its expanded role includes registration and issuance of all cruisers, testing and evaluation of all materials. Close coordination and cooperation is retained with the Fiscal Section.

PERSONNEL SECTION
450 WORCESTER ROAD
FRAMINGHAM, MASSACHUSETTS 01701

The Commonwealth of Massachusetts

Department of Public Safety

Supply Section
500 Worcester Road
Framingham, Mass. 01701
November 6, 1979

Commanded by
Captain Henry C. Scott

PERSONNEL

1- Captain	1- Maintenance Supervisor
1- Sergeant/Armorer	1- Storekeeper
1- Senior Storekeeper	2- Laborers
1- Senior Clerk Typist	

The Supply Section has the responsibility for the operation and maintenance of the Supply Depot, requisition and issuance of uniforms and supplies to individual and various Troops and Detachments of the State Police. Close coordination and coooperation is retained with the Fiscal Section.

All buildings and grounds of the Department are maintained and supplied through the Supply Section. Also, numerous motor vehicles supplies, are received and dispersed through the Supply Section.

The Armory Section is located within the Supply structure and all weapons, special weapons and emergency supplies are repaired, serviced and issued through this section.

Inventory and record keeping are essential activities performed within the Section.

Supply activities for July 1, 1978 thru June 30, 1979, were centered around supplying the last training class. This was accomplished with a minimum of funds therefore causing severe shortages in many supply items.

Activities for July 1, 1979 thru June 30, 1980 will again be centered on another proposed recruit class compounded by the existing shortages from the last and several previous classes. Also the completion of purchase and issue of approximately 400 "Mighty Mac" winter coats which are needed for damaged replacement and initial issue for the balance of the organization.

FLEET ADMINISTRATION SECTION
490 WORCESTER ROAD
FRAMINGHAM, MASS. 01701

COMMANDED BY
SERGEANT HECTOR J. GRAZIO JR.

PERSONNEL

1 - Sergeant	3 - Motor Equip. repair foremen
1 - Corporal	2 - Motor Equip. repair foreman(ac
1 - Motor Equip. repair supervisor	17 - Motor Equipment repairmen

The Fleet Section has the responsibility for the operation and maintenance of the Fleet, all garages, and related facilities. The receiving of Cruisers from the Car Dealers, Registering them and issuing them to the Troops, Bureaus and Sections. Close coordination and cooperation is retained with the Fiscal Section.

As the result of the establishment of a body repair shop at the Fleet Section in Framingham, the following savings have been realized from these new programs to the Division of State Police:

1. From the stripping of totalled cruisers \$13,641.00 worth of good used parts were issued to the various troop garages for the repair of troop vehicles.
2. 92 Cruiser accidents and damaged vehicles were processed through the Body Shop. Of these, bids were obtained on 55 of them for a total of \$30,402.80 per the low bids. These cruisers were repaired at the Fleet Body Shop at a cost of \$7,658.70 resulting in a savings of \$22,744.70. Of the remaining 37 cruisers where there was no bids available, the cost to repair them was \$ 2,565.00. A conservative estimate of having these repairs done by a private vendor would be in the vicinity of \$10,000. Of the 37 cruisers, 3 were declared totals due to the amount of cost to repair, same were repaired at the Body Shop at a cost of \$1,176.64 by the use of parts taken from totalled vehicles wherever possible and a limited number of outside purchases.
3. As the result of the temporary assignment of an additional man at the Fleet Section on November 1, 1978, a program of recovering damages from insurance Companies on cruiser accidents was instituted with the following results:
 - A. \$21,085.70 was recovered from Insurance companies and payments made to the vendor who repaired the damaged vehicles.
 - B. \$7,321.43 was recovered from Insurance companies on cruisers that were declared Totals and the money returned to the Comm. of Mass.

The Fleet Section maintains 2 Ramp Body Type Wreckers, 1 at AHQ Garage and 1 at the Fleet Section Office. The following is a list of the functions performed by the above two vehicles for the past 12 months:

1. Cruisers Disabled - Towed	201
2. Cruisers in accidents - Towed	47
3. Turned-in Vehicles	113
4. MV's towed for MVMB	19
5. Miscellaneous use	38
Total	<u>418</u>

During the months of September 1978 through December 1978, Motor Equipment Repairman Eugene Gregoire was assigned the task of surveying all Auxillary Generators throughout the Division of State Police to ascertain the condition and needed repairs of these units. Some maintenance work was performed on Generator Units, but the program was suddenly terminated in December 1978 without explanation by Lt. Col. Wills.

Confidential Cruiser Registration files are kept at the Fleet Section office and close cooperation with the Confidential Unit of the Mass. Registry of Motor Vehicles and thru this effort when there is an inquiry to the Registration of a cruiser the inquiring party is referred to the proper unit of the State Police in control of the cruiser. Also maintained at the Fleet Office is Card Files and other inventory records which are essential to the operation of the Fleet Section.

BUREAU OF TECHNICAL SERVICES
1010 COMMONWEALTH AVENUE
BOSTON, MASSACHUSETTS
(617) 566-4500

MAJOR JAMES E. HALLORAN, JR.
BUREAU COMMANDER

The Bureau of Technical Services consists of the Communications Section, Firearms Identification (Ballistics), Photography/Fingerprinting Section, Traffic Section, Crime Laboratory Section, and the Civil Defense Section.

The Bureau Commander is responsible for the administration of all sections assigned to the Bureau and shall be accountable to the Staff Operations Officer. He shall plan, direct and coordinate the scientific, technical and supportive staff functions.

The aforementioned Sections and Units are strictly supportive units for the members of the Massachusetts State Police (Uniformed and Investigatory personnel) along with other state, municipal and federal agencies upon request.

The ever rising crime rate, both violent and drug related crimes, have increased the awareness of law enforcement investigators in this Commonwealth, to the State Police scientific and technical capabilities along with expert testimony necessary for conviction in the presentation of evidence. Each year the work load and demand is also forever increasing. However, only through the integrity, special training and the tireless efforts of those personnel assigned. is the fight to combat crime in the Commonwealth of Massachusetts met.

12 STATE POLICE DISPATCHERS

STATE POLICE COMMUNICATIONS SECTION

The Massachusetts State Police Communications Section is the most important technical segment of the entire public safety operation. It is a viable entity which allows a highly decentralized body of personnel and equipment to function in coordinated fashion over the length and breadth of the Commonwealth.

The Communications System is composed of two interrelated, functional activities--the State Police radio network, and the Law Enforcement Agencies Processing System (A statewide Police Information Computer and Teletype System).

The radio system is a multi-million dollar statewide operation comprised of 46 towers and repeater stations which consolidate the Law Enforcement efforts of 900 mobile patrol and detective units. Troopers on the road, patrolling alone, or investigating serious crimes are exposed to many dangers in this permissive society within which we live. They are often many miles from assistance when their life is imperiled on dark, rural roads. Their only link with safety is the radio at their immediate command. Without it, they are in a vacuum, shut off from the outside world.

The LEAPS Teleprocessing System links Law Enforcement Agencies in the Commonwealth to a high speed computerized network of police information and communication. Currently, 217 local and State Police agencies are provided with the capability of instantaneous inquiry and response by high speed digital equipment to a centralized computer located at State Police Headquarters in Boston. Information on stolen vehicles and registration plates, missing or wanted persons, lost or stolen property, lost or stolen securities, stolen guns, outstanding warrants, and other viable police information is stored in the computerized system. The Network also provides participating agencies with the capability of information input and direct inquiry to the National Crime Information Center (NCIC) files in Washington, D.C.

The Communications Center is also the control terminal agency for the National Law Enforcement Teleprocessing System (NLETS) which links each of the continental states and the District of Columbia to a Nationwide Police Information computer system. All messages entering and leaving Massachusetts are monitored to conform to LEAPS and NLETS standards.

At the present time, nine sworn officers are assigned to the Communications Section. Two men are assigned to administrative duties; one man is assigned as a Coordinator for the LEAPS system, and six men are assigned as desk supervisors.

The Communications Section at GHQ, Boston, coordinates the operational effectiveness of field units and decentralized barracks by providing primary informational resource data. Field units obtain vital information concerning criminal warrants, license and registration data, suspension and revocation information and stolen vehicle and property data in expedient fashion by telephone, radio, and computer terminal inquiry.

Desk supervisors coordinate the operational activities of all manual and computerized system on an around-the-clock basis, ensure the security of the building after business hours, provide information to the public and the media concerning road and traffic hazards, and supervise the functions of State Police Dispatchers under their command.

The Area Coordinator for the LEAPS System provides initial and continuous training to operators of participants in the LEAPS System; continuously updating LEAPS, NCIC, NLETS, and DRIVES procedural changes and provides quarterly audits of users entries. Furnished by Quality Control Unit.

NATIONAL LAW ENFORCEMENT TELEPROCESSING SYSTEM

The interstate system is a National System known as National Law Enforcement Teleprocessing System (NLETS). All machines on this system operate at 1200 words per minute. We have direct connections via an automatic switching center in Phoenix, Arizona, to every state except Hawaii. This system uses call directing codes which direct the message to their destinations.

The System is broken down into eight lines as follows:

LINE A (Code is "AA")

Connecticut
Maine
Massachusetts
New Hampshire
New York
Rhode Island
Vermont
FBI
Dept. of Treasury
Postal Inspection Svc.
Naval Investigative Svc.

LINE C (Code is "AC")

With the end of the fiscal year June 30, 1978 the LEAPS Computer System contained the following:

STOLEN VEHICLES	62,304
STOLEN PLATES	16,355
WANTED AUTOS	22
BOATS - SKIMOBILES	315
MISDEMEANOR WARRANTS	35,809
FELONY WARRANTS	9,366
MISSING PERSONS	4,925
STOLEN FIREARMS	6,912
STOLEN SECURITIES	1,905
STOLEN ARTICLES	19,548

During the year many inquiries are generated for a check into the LEAPS Computer Storage resulting in numerous "HITS" and apprehensions. The files are constantly searched in typing together the vast bulk of information passing over the network, ultimately assisting each LEAPS user.

ANNUAL REPORT - FISCAL YEAR 1978-1979

MASSACHUSETTS STATE POLICE
PHOTOGRAPHY AND FINGERPRINT SECTION

LABORATORIES: GHQ - BOSTON, SUB-LABORATORIES, TOPSFIELD,
NORTHAMPTON, HOLDEN, MIDDLEBORO

During the fiscal year ending June 30, 1979, the following photographic activities were performed by the Photography and Fingerprint Section for the Massachusetts State Police, and other branches of the Department of Public Safety, Local, State, and Federal Law Enforcement Agencies and other Departments throughout the Commonwealth.

<u>ACTIVITY</u>	<u>NUMBER</u>	<u>PHOTO'S PRINTED</u>	<u>TOTAL PRINTS</u>
Criminal Cases	2,573	16,481	16,481
Departmental Assignments	47	821	821
Photos for Copy	2,723	5,947	5,947
Individuals Photographed	207	828	828
			<hr/> 24,077

The following fingerprint activities were performed:

Individuals fingerprinted:	668
Deceased persons fingerprinted:	244
Fingerprint identifications:	
Non/Criminal:	97
Criminal:	89
	<hr/> 1,098

During the fiscal year, 367 hours were consumed in court appearances, inquests and hearings by Section personnel in rendering expert testimony required of them as skilled technicians in the Sciences of Photography and Fingerprinting.

FEDERAL DEPARTMENTS: 389

TOTAL HOURS: 11,730

Services rendered to Insurance Companies, Law Firms etc. 113
(Companies requesting photographs - \$3.50 per 8x10)

Training is also involved in training of the technicians and assistants from police and other agencies of other departments for public relations photos and other photos in the Agency. We are also involved in photography and surveillance coordination for other bureaus within the Department. We are involved in audio, visual and video reports on various training films and documentary documentaries. We are involved in forensic arts to the extent that we copy, print, process for FBI Bureau of Identification. We mount exhibits for the Public Relations Section and we have fingerprints charts for evidence in court. We are also involved with photos or movies of Massachusetts State Police graduations, Memorial Day exercises, fireworks, and aerobics.

TROOP/UNIT/SECTION:

PHOTOGRAPHY & FINGERPRINT SECTION
MASSACHUSETTS STATE POLICE

COMMANDED BY:

LIEUTENANT RICHARD G. BRISBOIS

ASSIGNED PERSONNEL:

(20) GHQ - 7
A-2 - 1
B-H - 4
C-H - 4
D-H - 4

FUNCTION:

To provide technical assistance in the fields of photography, crime scene, the science of fingerprints, handling and processing of physical evidence and training in those sciences to local, state and federal law enforcement agencies throughout the Commonwealth.

PERTINENT INFORMATION:

The primary mission is the examination or comparison of materials, primarily by means of photography and fingerprinting, as may be necessary for the prevention and detection of crime, and the proper preparation of this evidence for presentation to Grand Juries and Courts in criminal cases.

The lab is also involved in training of new technicians both Massachusetts State Police and local police, of being responsible for public relations photos and class photos at the Academy. We are also involved in photomacrography and surveillance documentation for other bureaus within the Department. We are involved in audio visual and video taping in making training films, and documenting disturbances. We are involved in graphic arts to the extent that we copy many photos for MSBI (Bureau of Identification), we mount exhibits for the Public Relations Section and we make fingerprint charts for evidence in court. We are also involved with photos or movies of Massachusetts State Police graduations, Memorial Day exercises, funerals, and parades.

This year, as in the past, this Section has provided services on a twenty-four hour basis. Our members are called upon to perform their tasks in a wide range of situations. The technician who just finished taking a planned photograph of a graduating class at the Academy in the morning, may photograph the scene of a multiple fatal accident in the afternoon, and autopsy in the early evening and a homicide scene at 3:00A.M., the next morning. A member who examines fingerprints in a routine case may find himself comparing lifted prints with the record prints of a murder suspect the same day.

MASSACHUSETTS STATE POLICE
TRAFFIC SECTION
STATEMENT OF PURPOSE

1. - The Traffic Section is a section of the Bureau of Technical Services within Staff Operations of the Massachusetts State Police. Responsibilities and duties of the section are divided into three categories and are listed below:

A. ADMINISTRATIVE

1. Assemble, process, administer and summarize all traffic activities of the Division of the State Police. Upon being summarized and processed, all data is evaluated to seek out trends, strengths and weaknesses and any specific problem areas.
2. Responsibility for developing and suggesting departmental policy as it relates to traffic matters.
3. Overall supervision, planning, record keeping and monitoring of assigned tasks within the section, throughout the state police stations, between state and federal agencies and in all areas of police traffic law enforcement.

B. TRAINING

1. Conduct and administer the Breathalyzer and Radar training programs. Insure that state police breathalyzer and radar units are properly maintained, certified and kept in proper working order.

2.

C. FIELD OPERATIONS

1. Enforcement of laws relating to commercial vehicle operation and safety. Maintain special emphasis on vehicle overweight and transportation of hazardous materials.

MASSACHUSETTS STATE POLICE
TRAFFIC SECTION

SIGNIFICANT ACTIVITIES/PROPOSALS

1. The mandate by the administration and the federal government for the expansion of the truck weigh team into all areas of commercial vehicle laws, safety and hazardous material transportation makes the need for additional personnel and funding a must. These needs are as follows:

- A. Two additional Non-Commissioned Officers and six additional Troopers to provide minimum coverage and supervision to the state in this area of commercial vehicle enforcement.
- B. Training provided by the Department of Transportation schools and seminars in all areas of hazardous material transportation and commercial vehicle inspection. This training will produce personnel qualified to serve as instructors and experts for the State Police.

2. The need for a computer at the Section to provide a complete range of selective enforcement programs, data storage and project analysis to allow management to maximize the effectiveness of the Department through the proper utilization of available resources.

2.

3. In-depth accident investigation equipment and training to upgrade the Department to a higher level in accident investigation to assist in analyzing accident causes and locations. This higher level of expertise in accident investigation by the State Police will improve highway safety in the Commonwealth.

Annual Report of the Chemical Laboratory, 1978-1979

1. The Massachusetts Department of Public Safety Chemical Laboratory serves a population of over five million. It is charged with performing all of the forensic toxicology, fire and explosive chemistry for the state and criminalistics for all the state, except Boston. In addition, the laboratory is authorized to certify analyses of drugs for officers of this department for judicial purposes.

2. It should be noted that there have been persistent personnel and automatic equipment shortages during the last few years in the laboratory, nevertheless, as indicated by the annual summaries, the laboratory personnel have completed an unusually large number of analyses during the last fiscal year:

A. The criminalistics cases submitted to the laboratory number 2162 of which 61 involved the restoration of numbers and 1064 involved the investigation of fires and explosions and the evaluation of potential hazards.

B. The cases submitted by the Medical Examiners and State Police Pathologists, including homicide investigations, number 2012. Significant increases in highway death investigations resulting from legislation requiring blood alcohol tests on decedent drivers and adult pedestrians are included in this summary.

C. Drug cases submitted to the laboratory were 1373.

D. Breathalyzer Training Courses involving lectures on blood and breath alcohol levels in addition to Breathalyzer operation were given to 430 officers during the year.

E. Legislation authorizing the issuance of blood alcohol certificates in cases of alcohol involvement in driving violations has resulted in a total of 119 driving while intoxicated cases submitted to the laboratory.

3. The personnel and automatic equipment shortages noted beforehand resulted in some cases in the curtailment in number and quality of the requested examinations, nevertheless, every effort was made by the laboratory personnel to complete the requested laboratory examinations in a professionally competent manner. It should be noted, however, that the laboratory is still in need of space because of its rapidly expanding role in the law enforcement, narcotic control and toxicology fields.

4. In conclusion, it should be noted that the cooperation of the Medical Examiners and State Police Pathologists, other state agencies and particularly the other divisions of the Department of Public Safety was forthcoming whenever needed and was much appreciated by the laboratory staff during the fiscal year 1978-1979. Personnel of the Department who should be especially commended for their continuous assistance during the year are:

Mr. Andrew O'Brien, Director of Administrative Services, D.P.S.

Miss. Harriet Swett, Administrative Assistant

ANNUAL REPORT - CHEMICAL LABORATORY

July 1, 1978 - June 30, 1979

All classifications represent both actual and suspected crimes at the time cases are submitted. They do not necessarily represent final findings after completion of investigation.

TYPE OF CASE	NUMBER SUBMITTED
--------------	------------------

FATAL:

Shooting, Explosion	142
Stabbing (Cutting, Slashing, etc.)	67
Beating (Manual, Train, Plane, Fall, Axe, etc.)	91
Asphyxia (Strangulation, Drowning, Carbon Monoxide, etc.)	273
Poisoning (Alcohol, Drugs, Chemicals, etc.)	286
Automobile	673
Burning	19
Miscellaneous (Unknown, Natural Causes, etc.)	533

NON-FATAL:

Shooting, Explosion	28
Stabbing (as above)	44
Beating (as above)	47
Sex Offenses	319
Poisoning (as above)	0
Automobile	24
Burning	7
Abortion	0

Fatal shootings	109
Nonfatal shootings	74
Confiscated weapons	398
Weapons disposed of	315
Firearms reported and examined	4,268
Microscopic comparisons	89,725
Test firings	8,140

HIGHLIGHTS

For the past fiscal year, officers assigned to this Section have performed services for various State, Federal, and Local agencies. On occasion, our services have been requested and utilized by numerous eastern states. Members of this Section have spent a total of 677 hours rendering expert testimony on firearm related matters before various Superior, District, and Federal Courts both within and without the Commonwealth during the past fiscal year.

The Uniform Crime Reporting Unit has been federally funded since the inception of the Department of Criminal Justice and Law Enforcement Administration. This unit received funding from July 1, 1970 through October 31, 1971 received from the Committee on Criminal Justice.

The Field Operations program provides for training and instruction to law enforcement agencies in the preparation of crime records, forms and identification data collected by the Unit.

BOSTON, MASSACHUSETTS 02215

PERSONNEL: 8

The Uniform Crime Reporting Unit, Department of Public Safety, was established to serve as the centralized agency in Massachusetts for the collection and dissemination of crime statistics and to standardize the collection of Uniform Crime Reporting statistics on the state level compatible with the Federal Bureau of Investigation (FBI) Uniform Crime Reporting Program. Effective January 1977, participating local law enforcement agencies began voluntarily submitting arrest reports to the Unit on a monthly basis. Following review and verification for accuracy, this completed data is forwarded monthly to the Federal Bureau of Investigation, Uniform Crime Reporting Section, to be included in the National Crime Report. The collection of Uniform Crime Reporting data at the National level has historically been conducted by the Federal Bureau of Investigation, with the International Association of Chiefs of Police serving in an advisory capacity.

Uniform Crime Reports have been designed primarily to furnish law enforcement administrators information with which to measure problems and the effectiveness of service in their jurisdictions. Information is also provided by the Unit to enable administrators to analyze trends in local conditions. Trends for local agencies are summarized in annual and semi-annual releases and shown in detail in monthly comparison reports.

The Uniform Crime Reporting Unit has been federally funded since its inception through Discretionary Grant Awards from the Law Enforcement Assistance Administration (LEAA) with interim funding from July 31, 1979 through October 31, 1979 received from the Committee on Criminal Justice.

The Field Operations program provides the training and instruction to law enforcement agencies in the preparation of crime reports, forms and identification data collected by this Unit.

BUREAU OF IDENTIFICATION
1010 COMMONWEALTH AVENUE
BOSTON, MASSACHUSETTS 02215

PERSONNEL: 17

The Massachusetts State Bureau of Identification, Department of Public Safety, established under the control and supervision of the commissioner, is responsible for the receipt, collection and classification of criminal identification data from all state, county, municipal and regional law enforcement agencies, and to furnish to all law enforcement agencies information which may assist in the identification of or apprehension of criminals.

Services to the law enforcement community are accomplished through the following functions of the Bureau: name check of all fingerprints and identification data by the Russell Soundex System; classification of fingerprints not identified by name check, by the Modified Henry System of Classification and the National Crime Information Center (NCIC) System of Classification; manual and computer search of fingerprints; preparation of photographs for inclusion in the IDMO (Identification-Moduc Operandi) file for possible identification of suspects by victims or witness of a crime; preparation and distribution of the Massachusetts State Bureau of Identification (MSBI) Bulletin to law enforcement agencies as an alert to the release of prisoners from Massachusetts Criminal Institutions, wanted persons, escapees, missing persons and lost or stolen items; the teletype systems requires the Bureau to be ready at all times to furnish complete information regarding criminals, quickly and accurately; prepare special flyers for immediate distribution on wanted, missing or escapees; transmit fingerprints of unidentified persons to the Federal Bureau of Investigation, Identification Section, via the Litton Facsimile; in-house instructions are provided to local police personnel in the classification of fingerprints; the use of the Identi-Kit provides a composite

of the suspect as described by the witness or victim before viewing the IDMO file.

In order to provide quality service and meet the increasing demands from the law enforcement community there is a need to upgrade, relocate and adequately staff the Bureau, establish a fingerprint classification section and update the computerized fingerprint search program. The law enforcement agencies are dependent upon reliable, complete and accurate arrest information in conducting criminal investigations. Some of the aforementioned services have been curtailed for lack of modern equipment, sufficient personnel and space.

OFFICE OF
INVESTIGATION AND INTELLIGENCE OPERATIONS

1010 COMMONWEALTH AVENUE
BOSTON, MASSACHUSETTS

(617) 566 - 4500

COMMANDED BY
LIEUTENANT COLONEL JOHN R. O'DONOVAN

The Office of Investigation and Intelligence Operations is comprised of the Criminal Information Section and the Bureau of Investigative Services. The greatest part of the criminal investigation and undercover operations are handled within this Office.

In addition to the State Police, this Office serves the Attorney General, all of the District Attornies, the State Fire Marshal and all Federal, State and Municipal agencies needing assistance.

BUREAU OF INVESTIGATIVE SERVICES
1010 COMMONWEALTH AVENUE
BOSTON, MASSACHUSETTS
(617) 566 - 4500

COMMANDED BY

MAJOR JOHN R. REGAN

The Bureau of Investigative Services consists of the Detective Section, the CPAC Units, the Narcotics Section and the Special Service Section. This Bureau reports to the Office of Investigation and Intelligence Operations.

Arson Strike Force were developed by this Bureau during the past year and units were implemented in Fall River, Lawrence, Haverhill and Lowell. The impact of these teams has resulted in at least a 50% decrease in Arson and arson-related cases in those communities. Additional units will be established in other areas showing a high rate of incendiarism.

The following pages summarize the activities of the Bureau and indicate the assignment of personnel.

The Commonwealth of Massachusetts

Department of Public Safety

MASSACHUSETTS STATE POLICE UNIT
CRIMINAL BUREAU
19th Floor

August 16, 1979.

TO: Lt. COLONEL JOHN R. O'DONOVAN, COMMANDING,
BUREAU OF INVESTIGATION & INTELLIGENCE OPERATIONS

FROM: DET. LT. ROBERT J. CUMMINGS, COMMANDING,
STATE POLICE UNIT, DEPT. OF THE ATTORNEY GENERAL

RE: ANNUAL REPORT

As requested at your meeting of 8-10-79, the following information is forwarded.

- 1.) Total number of cases - 242
Total number of arrests - 85
Total number of closed cases - 157
Total number of open cases - 85

Money confiscated and turned over to the State Treasury - none.

Total amount of fines incurred during said investigations - information not available.

Assistance to Federal agencies and local police - 42

Intelligence data collected - This Unit has a system of collecting specific intelligence data. This systematic collection is evaluated and analyzed to determine presence and scope of criminal activity. This information is then utilized to determine the course of action to be taken. This past fiscal year there were approximately eighty pieces of data evaluated.

Number of cases extended over one month period - 50

Number of buildings inspected for the Fire Marshal none.

Cases prepared for other jurisdiction - When investigations in this office lead to prosecution it is usually by way of the Grand Jury. Some other cases may be

referred to a District Attorney's Office for prosecution. Also, local police and other state agencies utilize this Unit's technical capabilities. For example, electronic, photographic, and voiceprint identification capabilities.

Total value of contraband seized - none.

2.) Not applicable as the Attorney General is responsible for all equipment and repairs.

3.) Not applicable.

4.) This Unit is about to receive through the Attorney General a Federal grant designed to continue arson investigations. It appears that this area will be the major concentration over the next several months.

To highlight a few of this Unit's cases during fiscal year 1978-1979 this officer would like to cite the following.

1.) This Unit has primarily been involved in numerous arson probes in the metropolitan Boston area. One of which involved the staking out of a multi-storied office building in downtown Boston and resulted in the apprehension of two subjects.

2.) An investigation into alleged larceny of civil service examinations leading to bribery and extortion indictments.

3.) Officers in this Unit along with the Boston Police Department conducted an investigation into fire bombing incidents in Boston neighborhoods. These incidents were of a racial nature.

4.) This Unit is involved in an ongoing investigation of state tax violations. Also involved here are investigations of cigarette tax violations.

5.) This Unit conducted an independant gaming investigation as well as a gaming investigation using court-ordered wiretap, in conjunction with the Special Service Unit. A court-ordered wire-

tap was conducted by this office for Plymouth County CPAC as well.

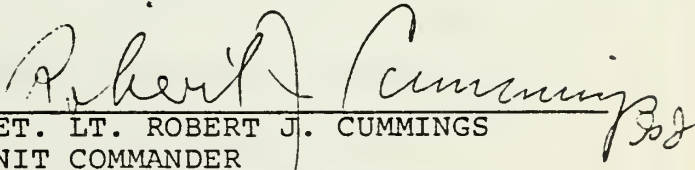

The above-mentioned cases have all resulted in arrests, some convictions; and some are still pending court disposition.

This Unit's photo capabilities are constantly being utilized in our own investigations as well as assisting other units and departments.

This Unit has a State Police officer trained in the principle of voiceprint identification who has assisted many departments including departments outside Massachusetts in voiceprint identification investigations.

All of the above situations have required long hours of investigation and training. Some of these investigations being of many months duration.

The two additional men requested in Form P-1/SP as well as replacing the officer on extended sick leave are sorely needed from both a work-load point of view and a supervisory point of view.

BUREAU OF INVESTIGATIVE SERVICES
CRIME PREVENTION AND CONTROL UNIT
BARNSTABLE SUPERIOR COURT
BARNSTABLE, MASSACHUSETTS
617-362-2511

Commanded by:
Detective Lieutenant Joseph A. Arnold

The Crime Prevention and Control Unit (C-Pac) attached to the Barnstable District Attorney's office was first established in 1973. At the time, it was formed there were three Detective Lieutenants, one Staff Sergeant, and 9 Troopers. This unit covers three counties, Barnstable, Dukes, and Nantucket.

The main duties of this unit are to investigate all cases for the District Attorney in all three counties, to assist all local police departments in their investigations when called upon, to gather all intelligence regarding organized crime, narcotic smuggling, gaming, and white collar crimes as well as all other investigations initiated by investigators in this unit.

Since 1977, narcotic smuggling has become very prevalent on Cape cod, the entire Cape being surrounded by water. Because of this, narcotic smuggling has become a top priority within this unit. All intelligence regarding narcotic smuggling gathered by this unit has been disseminated to our narcotic section in Norwell, the United States Coast Guard, United States Customs, Drug Enforcement Agency and all local departments.

In 1979 an arson task force has been established on a county-wide basis by this unit and includes a representative of every

police and fire department of every town in the three counties.

The following pages summarize the activities of this unit and indicate the assignment of personnel.

BARNSTABLE CRIME PREVENTION AND CONTROL UNIT

Barnstable Superior Court
Route 6A
Barnstable, Mass.

Yarmouth State Police Barracks
Route 28
South Yarmouth, Mass.

Supervisor : Detective Lieutenant Joseph A. Arnold

Staff Personnel: (3) Detective Lieutenants

- A) Supervisor
 - B) Fire Marshal Representative
 - C) District Attorney's office
- (1) Staff Sergeant
- A) Office duties and general investigator
- (5) Troopers
- A) Narcotic Officer
 - B) Fire Marshal Representative
 - C) Gaming Officer
 - D) General Investigations
 - E) General Investigations

Statement of Purpose:

The main duties of this unit are to investigate all homicides, arson, rapes, larcenies, gaming, narcotic, bank robberies, white collar crime cases, as well as cases given to us by the District Attorney on citizen complaints, mainly involving police brutality.

The territory covered by this unit is unique in that it includes three counties, all of which are surrounded by water. This creates a time of travel problem, especially to Dukes and Nantucket Counties because of the public transportation problem.

The population of the three counties during the winter months are approximately 154,000 people. During the summer months it is

increased by 300%.

The majority of the local police departments are small except for the Towns of Barnstable and Yarmouth. During the summer months the majority of the police departments hire summer police officers who are not properly trained. Therefore, many of the departments call upon this unit to assist them in all types of investigations.

Activities (July 1, 1978, thru June 30, 1979):

Total cases opened:	255
Total cases closed:	209
Total open cases:	46
Total number of arrests:	122

This unit also gathered a numerous amount of intelligence information which does not appear above. This information was disseminated to the Federal Bureau of Investigation, United States Coast Guard, United States Customs, Drug Enforcement Agency, and state and local authorities.

Highlights or Expansion on Activities You Deem Significant:

July 1978: Ten tons of marijuana was seized in the Town of Sandwich valued at ten million dollars. Seven people were arrested and a 47' fishing dragger, valued at \$65,000, was seized.

September 1978: The First National Bank in Yarmouth was held up. Within 45 minutes, the subject was apprehended and \$6,740.00 in monies were recovered along with the weapon used.

July 1978: An elderly male was murdered in Dennis, Massachusetts. The victim was stabbed several times. Through nation-wide teletype messages sent out by this unit and through further investigation, suspect was apprehended in Old Orchard Beach, Maine. Members from

this unit flew to Maine and obtained full confession and recovered property stolen from the victim.

October 1978: Three hundred pounds of marijuana was seized in Falmouth, valued at \$180,000.00. Three suspects were arrested.

March 1979: In March 1979 approximately two pounds of uncut cocaine valued at approximately \$200,000.00, 1200 tuinal tablets, valued at \$6,000.00 were seized at Dunfeys Motel in Hyannis. Five persons were arrested.

CPAC
BERKSHIRE COUNTY
460 DALTON AVENUE
PITTSFIELD, MASSACHUSETTS
(413) 442-6908

COMMANDED BY
DETECTIVE LIEUTENANT ROY F. SIBLEY

This CPAC Unit consists of a Detective Lieutenant, one Sergeant and four Troopers. The Unit's responsibilities include assisting the local police departments, District Attorney's Office, and two State Police barracks in the County in the detection of crimes and the apprehension of criminals. This county is made up of two cities and thirty towns, many of which do not have full time police departments.

During the 1978-1979 fiscal year CPAC Berkshire had a caseload of 198 cases, made 93 arrests and closed out 85 cases. About twenty per cent of the cases involved lengthy investigations, usually lasting longer than a one-month's duration. Included in these lengthy investigations were several narcotic cases; a one million dollar rare art theft and the continuing investigation of two unsolved homicide cases.

In the reporting period assistance was rendered to the Office of the Berkshire County District Attorney in the presentation of cases before five different sessions of the Grand Jury, two of which were special sessions.

Assistance in the preparation of two murder trials was also conducted by members of the Unit. In January of 1979 for a new District Attorney the complete pending trials list was reviewed by our personnel, and a new revised list was formulated for a speedier disposition of the cases. In addition to other investigations conducted for the District Attorney, we conducted background investigations for new personnel in that office.

As the result of one of our investigations, a total of fifteen thousand dollars (\$15,000.00) was assessed in fines for violation of the pornographic laws. Another case involving gaming violations resulted in a three-thousand dollar (\$3,000.00) fine.

Drugs valued at \$5,000.00 have been seized during the past fiscal year and in one case alone where this unit assisted the Federal Drug Enforcement Agency in the raid of a "Drug Lab", close to four million dollars worth of Methamphetamine was seized and several people were later convicted in the Federal Court.

Stolen antiques valued at approximately twenty-thousand dollars (\$20,000.00) were recovered in New York State as the result of an investigation conducted by one of our officers with the New York State Police.

Representing the State Fire Marshal's office, assistance was given to local agencies into the investigation of suspicious fires. Several cases of Arson were uncovered and arrests made.

A total of thirty-seven (37) death cases were investigated over the past fiscal year by officers from this unit. Eleven (11) were suicides; three (3) were fire deaths; Two (2) were vehicular homicides; hit and run pedestrian types in which arrests were made in both cases after lengthy investigations; and one (1) murder occurred and arrests were made in that case also.

The unit is in need of at least one new typewriter (manual) and the ones presently in use should be serviced.

Four filing cabinets are needed for the office as well as a copy machine. In order to copy material we have to travel across town to the Courthouse.

The six unmarked cruisers should be equipped with emergency blue lights. (Portable type that plug into the lighter)

If two or three men were added to our strength, it would be possible for us to have an evening shift. This is desirable in our area because many of the local police chiefs and constables in the smaller towns work regular jobs in the daytime and are only available in the evenings for purposes of conferring with and gathering intelligence information.

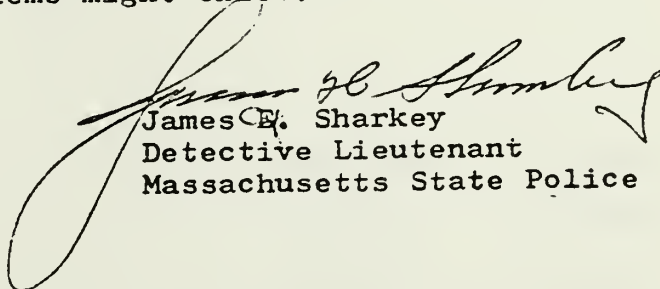

The Commonwealth of Massachusetts

Department of Public Safety Bureau of Investigative Services Major Crime Unit

The Major Crime Unit of the Bureau of Investigative Services, bears a unique position in the proper and efficient execution of the investigative functions of the Massachusetts State Police.

The Units consists of twenty-two officers, whose knowledge and expertise of the different facets of Law-Enforcement such as Narcotic Drug Enforcement, Hi-jacking of Trucks in interstate commerce, Interstate rendition of fugitives, Rape investigations etc., carry them to all jurisdiction of the Commonwealth whenever extraordinary law-enforcement problems might exist.

To: Major John F. Regan
From: Det. Lieut. Gordon S. Clarkson
Subject: Budget Information - Annual Report
Sir:

1. In the fiscal year which started July 1, 1978, the Bristol County C-Pac Unit:

Investigated 298 cases

Made 203 arrests

Closed 293 cases

Kept 5 cases open

Turned over no money to State Treasury.

Fines imposed:

Approximately \$30,000 was paid in fines in drug cases alone.

Assisted federal agencies approximately 60 times

Assisted Local Police approximately 175 times

Collected intelligence data on a daily basis

by all members of our C-PAC Unit through observations, information etc.

Sixty of our cases were extended over a one month period.

During the fiscal year no buildings were inspected for the Fire Marshal.

Assistance has been rendered in the preparation and presentation of cases to local police and the District Attorney's staff either by myself as Detective Lieutenant or by members of the C-Pac unit who either participated in the investigation or has expertise and can be qualified as an expert by the Court in drugs or stolen cars. This assistance takes place

in the event of every case of major importance such as homicides, robberies, kidnappings, and other major felony cases.

Total value of stolen property seized:

In "Operation Brisnorf" we recovered precious metals, firearms, and miscellaneous property with a value of \$225,000.

In addition, on numerous investigations during this fiscal year, we recovered stolen motor vehicles valued at \$420,000.

Recovered guns amounted to \$400.

Recovered antiques amounted to \$6,000.

Tape Recorder, hair dryer, and electric razor amounted to \$200.

Auto parts amounted to \$1,000.00

Rings amounted to \$1,100.00

Total value of recovered stolen property \$653,720.

Contraband seized:

Drugs (street value) \$143,197.00

Autos seized:

1978 Dodge Magnum	\$7,500.00
1978 Pontiac Trans AM	\$8,000.00
1977 Lincoln Mark 4	\$8,000.00
1975 Lincoln Mark 4	\$5,000.00
1976 Triumph	\$4,000.00
1972 Ford Van	\$2,000.00

Total Value of Autos seized- - - - - \$34,500

Total Value of contraband - - - - - \$177,697.00

Criminal Information Bureau
Massachusetts State Police
1010 Commonwealth Avenue
Boston, Massachusetts 02215

August 15, 1979

ANNUAL REPORT 1978-1979 CRIMINAL INFORMATION BUREAU DIVISION OF STATE POLICE

The present staff of the Criminal Information Bureau is comprised of one Detective Lieutenant, one Identification Operator and one Senior Clerk & Stenographer.

The purpose of the Criminal Information Bureau is to collect information, either by investigations of its own or contributed from other law enforcement agencies, on organized crime, organized illegal gambling and other illegal activities generally described as rackets, including information as to the identity and doings of persons who engage in, promote, operate or participate in such activities and persons arrested for the illegal use, sale or possession of harmful drugs or narcotics.

The Criminal Information Bureau shall maintain files of all of the above information and serve as a clearing house for all law enforcement agencies within the commonwealth that have a concern for the intelligence information.

All information received by the Bureau as mentioned above and including intelligence reports and investigative reports from all units of the Massachusetts State Police are catalogued and indexed in a cross reference system using available electronic equipment. In the fiscal year 1978-1979 there were thirty thousand, four hundred and twenty three (30,423) indices.

The courts of the commonwealth submitted five thousand, three hundred and fifty four (5,354) notifications on drug and gaming charges and convictions for the fiscal year 1978-79 to this bureau. Of these, one thousand, three hundred and seventy two (1372) were sent out to the local police departments in the commonwealth that they concerned.

There were one hundred and ninety nine telephone subscriber requests from out of state law enforcement agencies to assist them with investigations within their jurisdiction. (199)

One thousand, five hundred and ninety seven background checks were conducted for the Massachusetts State Police and numerous other law enforcement agencies from within and without of the commonwealth. (1,597)

Various police departments submitted one hundred twenty three (123) Breaking & Entering reports.

The correctional institutions throughout the commonwealth sent six thousand, four hundred and ninety furlough notices to be processed by this bureau. (6,490)

The total number of court certifications notarized for the chemistry laboratory by this bureau was two thousand, six hundred and forty three. (2,643)

The Bureau of Investigative Services reports are maintained by this bureau. They must be read, indexed for the computer, filed and then stored by the personnel of this bureau. The total number of cases from the Bureau of Investigative Services in the fiscal year 1978-79 was approximately four thousand, eight hundred and forty three. (4,843)

The New England State Police Administrative Conference (NESPAC) has established itself as a regional team for intelligence activities within the six state area. This bureau has been designated as the central office to maintain the files and intelligence for NESPAC. During the fiscal year 1978-79 four thousand, two hundred and fourteen items indexed into the computer. (4,214)

This bureau is also responsible for the reporting of statistical data to the Uniform Crime Reporting Unit for all the units of the Bureau of investigative Services.

In compliance with Chapter 347 Of the Acts of 1958, concerning the reinstallation of telephones used in connection with gaming the bureau had forty two phones removed and four reinstalled.

ESSEX COUNTY CPAC
STATE POLICE, TOPSFIELD
210 BOSTON ROAD, TOPSFIELD, MASS.

SUPERVISED BY:
DETECTIVE LIEUTENANT INSPECTOR WILLIAM F. CRONIN

This unit is composed of four detective-lieutenants, one staff sergeant, one sergeant, four troopers, one regular clerk and one CETA employee (clerk-typist).

This unit primarily is assigned to the Essex District Attorney's Office to do the criminal investigations required by that office, this CPAC unit also engages in any other investigation which is officially assigned to it from GHQ, Boston. It also assists in investigations initiated by other state and federal agencies. Also contained in this CPAC is a sub-unit composed of a detective-lieutenant and a sergeant which is engaged in the investigations pertaining to arsons and the preparation of these cases for presentation to the courts.

During the last fiscal year the Essex CPAC unit has been engaged in investigations numbering three hundred and twenty-seven. Of this number approximately one hundred and eight pertained to sudden or suspicious deaths with twenty of these cases relegated to a homicide classification. In addition to cases pertaining to sudden and suspicious deaths, this unit undertook investigations

including larcenies, truck hi-jacking, conflict of interest, numerous investigations for out of state law enforcement agencies in regard to extensive background checks for candidates for law enforcement positions, bank robberies, extensive investigations into the theft of services from public utility companies and processing all legal documents pertaining to the rendition of prospective defendants from asylum states, together with the service of Governors' Warrants against fugitives found in this jurisdiction. There were a total of one hundred and sixteen people arrested and brought to court by members of this unit during the fiscal year of 1978 - 1979.

On January 3, 1979 a new District Attorney, Kevin M. Burke, of Essex County was installed and at several meetings with this writer he has made known the fact that his office was to become more actively involved in the relentless pursuit and prosecution of the criminal element of this county than previous administrations. As a result, an added burden has been placed on the Essex County CPAC because of their involvement with certain types of investigations which the previous administration passed over to other agencies for investigations and prosecution. While the District Attorney's staff of assistants has been greatly enlarged compared with previous administration, the CPAC unit, which is the investigating arm of the District Attorney's Office, has remained the same in numbers, but lost several detective-lieutenants, due to retirements, to lesser ranks. When new detective-lieutenants are appointed, this writer requests that at

least two of the appointees be assigned to this unit to augment the present complement.

It is also to be noted that members of this unit should be outfitted with proper equipment to assist them in their work and for the protection of their persons. In many instances when the members of this unit have been called upon to assist other law enforcement agencies, the men have had to borrow bullet resistance vest, identifying jackets and in some cases coveralls, rubber boots and very often walkie-talkie radios.

In conclusion, it appears that the Essex CPAC activities will be expanded and be much busier during the tenure of the present District Attorney and should be equipped both in personnel and working apparatus to enable them to perform their assignments in a professional manner.

The Commonwealth of Massachusetts

Department of Public Safety

Essex County CPAC

Topsfield, Mass.

August 15, 1979

To: Major John F. Regan
From: Detective Lieutenant William F. Cronin
Subject: Budget Information - Annual Report

1.
 - A. Total number of cases 1978-1979.....327
 - B. Total number of arrests.....116
 - C. Total number of closed cases.....273
 - D. Total number of open cases.....54
- E. This unit did not in and of itself confiscate any money but did participate in raids where money was confiscated.
- F. The total amount of fines occurring as a result of prosecutions resulting from investigations initiated by this unit is very difficult to ascertain, the reason being that in many cases where the defendant/defendants have pleaded guilty, the officer is not present and this knowledge is only known to the court officials.
- G. During the fiscal year assistance was made or offered to the F.B.I., ATF, S.S., DEA, and the U.S.C.G.

The F.B.I. and this unit have worked together in the several bank robberies occurring within the county during this reporting period. Although the F.B.I. had primary jurisdiction of this offense in most cases, this unit also participated in regard to violation of this state's statutes. The ATF very often came to this unit for assistance in regard to locating persons that they were interested in and to assist them in raids relating to firearms, etc.

This unit has in the past year assisted the Secret Service in augmenting their detail when the President of the United States came to this area.

Contact has been made with the U.S.C.G. that this unit is willing and able to assist them if the occasion rises, i.e. during drug activity along the county coastline.

H. Assistance is given to virtually every city and town police department in Essex County by this unit. Of the 327 cases opened by this unit during the last fiscal year, approximately 60 percent of these cases involve local police and this unit actively assisted and worked with those law enforcement agencies.

I. In many instances certain information came to the knowledge of members of this unit. This information was passed on to units within the state police organization that specialized in the subject matter.

J. A goodly number of cases that are opened by members of this unit can be classified as extended cases, those which take a considerable amount of time to investigate and extend over a month's time span. The type of case that would likely go beyond a month's time in regard to investigations could be those concerning conflict of interest, investigations in municipal departments of a city or town and in many homicide cases. This unit during the fiscal year of 1978-1979 was involved in many such investigations. Also to be placed in this category are rendition cases wherein the defendant fights his return to the demanding state, thus causing a long drawnout court proceeding sometimes extending over a period of several months. One case of recent vintage is an ongoing investigation concerning the city of Peabody. Another example is the present arson investigation in the city of Lynn, a similar example is that of the arson investigation in the city of Lawrence which culminated with many defendants being brought into court. A recent undertaking was an investigation into improprieties at the Danvers State Hospital. At the same time of this writing an investigation is under way in regard to the city of Newburyport Credit Bureau which requires extensive examination of records. This unit has recently completed a lengthy investigation concerning the theft of services from the Massachusetts Electric Company and another such investigation started in the northern part of the county by this unit.

K. As far as possible there were no buildings inspected by this unit for the Fire Marshal's Office during this fiscal year according to our records.

L. In regard to the number of cases prepared for other jurisdictions, it is safe to say that approximately 55 percent of this unit's cases end up in the grand jury and preparation for this process falls under this unit for its proper presentation.

Whereas this unit is primarily assigned to handle investigations for the District Attorney, the vast majority of this unit's cases are prepared for the District Attorney.

M. 1) In regard to contraband seized by this unit, the amount of drugs is small due to the fact that when this unit is involved in drug raids, usually a member of the narcotics squad is present and any drugs seized and taken into custody for analysis and preservation are held by that member of the narcotics unit.

2) It appears that only a few motor vehicles are seized by members of this unit. When a motor vehicle is seized it usually is involved in a homicide and released after the investigation is concluded.

3) During this fiscal year about \$2500.00 in silver antiques were recovered after a larceny of these items.

4) There were no hi-jacking items seized by this unit during the fiscal year.

5) No boats or aircraft were seized by this unit during the fiscal year.

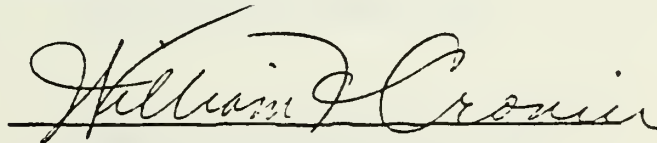

6) Several firearms were seized by members of this unit during this fiscal year. The majority of these weapons were used in homicide cases where death was caused by a firearm.

In other instances members of this unit participated in raids with other law enforcement agencies where firearms were seized and held by that agency.

for the present complement, it is lacking in ancillary services. During the summer months the heat and humidity factors are sometimes intolerable, due to the lack of an air conditioning unit, the need for an up to date electrical service should be of top priority. The area occupied by this unit needs painting and the windows should be overhauled and put in good operating condition. The lighting service consists of a one bulb situation in the ceiling and one electrical outlet in each room, hardly adequate if the personnel buy their own desk lamps. Bulletin boards should be provided for the posting of items of interest.

- 2) There are several items that should be furnished to the personnel of this unit, namely bullet proof vests or jackets, identifying armbands or field jackets so that law enforcement members could easily be identified during raids, especially night operations. Each member of this unit should have coveralls issued to him in order to preserve his good working clothes when it is necessary to enter areas where his business clothing might be damaged or ruined. Each CPAC unit should have its own weapons, such as shotguns and a rifle so as to be readily available when an emergency exists and time is of the essence. Among the highest priority is a set of up to date statute law books in every CPAC office.
- 3) . Does not apply.
- 4) This writer finds it very difficult to answer the query set forth under paragraph #4. It appears that there are sufficient programs undertaken by this department to keep it a smooth running organization.

Respectfully submitted,

William F. Cronin

Det. Lieut. George W. Powers - Commanding Officer

This unit is comprised of 1 Detective Lieutenant, 1 Corporal, and 7 Troopers. Two of these Troopers work a night shift.

This unit conducts investigations into all serious crimes in two Counties; namely, Hampshire and Franklin. There are only 12 full-time Police Departments in these 49 Towns which cover an area of approximately 2,000 sq. miles. This unit works out of the Office of the District Attorney in Northampton and Greenfield. Numerous investigations are requested by the District Attorney, especially in the field of malfeasance by public officials. He also utilizes this unit in the preparation of trials by locating and re-interviewing witnesses. All suspicious fires in the two Counties are investigated by this unit. Officers of this unit frequently travel out of state to return prisoners to this Commonwealth on Interstate Rendition. Illegal gaming and illegal drug activities are investigated and an intensive intelligence file is kept. Assistance is given to local police in the drafting of affidavits for search warrants.

The following pages summarize the activities of this CPAC unit and indicate the assignment of personnel for the fiscal period from July 1, 1978 to June 30, 1979.

BUREAU OF INVESTIGATIVE SERVICES
MIDDLESEX COUNTY DISTRICT ATTORNEY'S OFFICE
DETECTIVE LIEUTENANT GEORGE E. MCGARITY, SUPERVISOR

This State Police investigative unit consisting of 14 investigators reports to the Commander of the Bureau of Investigative Services.

This unit conducts investigations throughout the 54 City and Towns comprising Middlesex County. These investigations may be at the request of the District Attorney, the various municipalities involved, other State or Federal Agencies, or at the direction of the commanding officer of the Bureau of Investigative Services.

During the 1978-1979 fiscal year officers assigned to this unit successfully investigated cases which eventually resulted in the prosecution and conviction of individuals in a wide variety of criminal activity.

For example:

The selling of jobs and illegal solicitation of Campaign contributions by an employee of the County Commissioner's Office.

The illegal installation of electronic listening devices throughout the Ayer District Court.

Three separate cases of Child Abuse and abandonment resulting in death.

Officers assigned to this unit investigated a total of 102 sudden deaths and 31 homicides 22 of which have been solved resulting in 16 arrests.

1.) Enclosed is the activity of the Narcotics Section from July 01, 1978 through June 30, 1979.

2.) This Unit was involved in the seizure of drugs and equipment with a value of fifty (50) million dollars (details in attached report) and based on the agreed 10 percent rate of apprehension, the magnitude of the problem becomes more evident. The drug problem in Massachusetts is estimated at approximately 500 million dollars based on seizure of Marijuana only. It must be noted that no seizures of airplanes were made, although it is documented that airplanes are being used. It must also be noted that Logan International Airport, Boston - under State Police Jurisdiction is the only major airport in the country without a Drug Unit attached. (This info from DEA).

3.) DEA Administrator Bessinger was in Boston on August 07, 1979 and according to DEA Cronin, Boston office - Bessinger addressed a group in Boston and stated that the illegal use of legitimate pharmaceutical products through diversion has increased rapidly and now more deaths are caused by this route per year than deaths as a result of Heroin. This is an alarming statistic.

4.) The Narcotics Unit as you know is grossly understaffed and underfunded. If the Narcotics Law - 94C, Section 47 was amended regarding seizure, the State Police Drug Unit would be self sufficient and able to go after what is referred to as the "Big Dealer". At the present time, the seizures are spread out all over the state by different D.A.'s offices. If the State Police were able to utilize all property and monies seized by State Police personnel, - the total would be immense. State Police seized the boats for D.A. Rollins because local police have no authority beyond mean low water line. This is extremely important. The State Police are the only organization that has the power up to three (3) miles at the present time along the complete coast line of Massachusetts. Example: State Narcotics Section seized during year ---

Cash	\$136,000.00	
Vehicles #11	71,000.00	
		(\$207,000.00)
State Police assigned to D.A.'s		
Cash	\$120,000.00	
Vehicles #6	60,000.00	
		(\$180,000.00)

To: Lt. Colonel John R. O'Donovan, Bureau of Investigative Services
From: S/Sgt. Howard R. Levings, Commanding Officer, Narcotics Section
Subject: Annual Report - Narcotics Section (Narcotics, Diversion, Smuggling Units)

(Continued from Para. 4. ----)

Vessels seized by State Police and Customs, and turned over to
Customs because of lack of funds for storage \$1,970,000.00

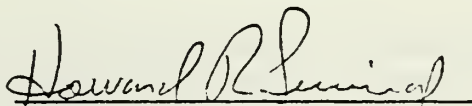

Totals approximated 2.2 Million Dollars

If this effort was put into one basket for State wide narcotics
investigations, we would be much more successful.

5.) It is now a documented fact that Organized Crime is deeply involved
in Drug Smuggling, Murder, etc. and are attempting to control the Cocaine
distribution in the North End.

6.) I hope the information contained in this report will verify and/or
justify the requests for men and equipment.

Respectfully submitted,

Howard R. Levings #643

Narcotics Section divided into three (3) areas.

A.) Undercover Troopers assigned to investigations for numerous C-PAC and Local Police Departments throughout the Commonwealth. Undercover Troopers are used primarily for drugs and secondly for intelligence and contacts for stolen goods, Hit Men to commit murder etc. At present time, at least ten (10) communities are waiting for Undercover Troopers.

B.) Diversion Investigations referred to as D.I.U. Unit. The Massachusetts Unit received National Recognition and received a Special Award from the New England Narcotics Officers Association in 1978 for Outstanding work. The Diversion Unit investigates the diversion of legally manufactured drugs to illegal purpose through theft, illegal perscribing by doctors and illegal distribution by pharmacies. In 1977 when Federally Funded, the D.I.U. had a compliment of seventeen (17) people assigned to D.I.U. function only. At this time, this function has been absorbed into the Narcotics Section. Five (5) Troopers are now working full time on D.I.U. cases.

C.) Smuggling Unit: S/Sgt. and one (1) Trooper working full time coordinating intelligence for Massachusetts during the past year. The Commissioner has designated the Narcotics Unit as coordinator between Federal and Local Departments as well as out-of-state agencies. A minimum of fifteen (15) inquiries a day come into this unit from outside agencies.

3. Also: Gold Stolen Property

STATEMENT OF PURPOSE

Total value of Contraband

A.) Undercover Agents - extremely important funtion in assisting Local Police Departments throughout the Commonwealth. Except for the largest City Departments, the Local Departments depend on the State Police for Drug Investigations.

N A R C O T I C S S E C T I O N

(Continued - Statement of Purpose) ---

B.) Diversion Investigative Unit - this unit was formed in 1974 with Federal Grant with a compliment of seventeen (17) people. At present, five (5) people are doing these investigations full time. The State Police developed expertise in this field and as a result, Doctors, Pharmacies and Local Police call for investigations in their communities. It should be noted that DEA policy dictates that any State that has a D.I.U., the DEA refers all investigations to this Unit and the Compliance Section of DEA does not get involved with field investigations.

C.) Smuggling Unit: During 1978-79, it became apparent that Massachusetts along with Maine was becoming the Smuggling areas of the Northeast Coast. The Smuggling includes Heroin, Cocaine, Hashish, Marijuana by boat, plane and truck. During this time period it was clear that Smuggling by sea became year round. State Police working with Operation Atlantis identified twenty-four (24) different Smuggling Groups based in Massachusetts. Massachusetts residents are being arrested all over the country in large Smuggling operations. Organized Crime has become involved due to low risk and high profit.

The overall purpose of the Narcotics Section is to supply the continued high excellence of service to both Federal and Local Authorities in Massachusetts and throughout the country.

ACTIVITIES July 01, 1978 to June 30, 1979

NARCOTICS:

A.) During October and November 1978, information was developed that Drugs and Guns were being sold in the Attleboro and North Attleboro area. At the same time, information came in that the precious metals firms in that area were losing millions of dollars in Gold and Silver. As a result, the Narcotics Unit wrote a proposal to the Federal Strike Force in Boston for Federal Funds for this project. Two (2) Narcotics Undercover Agents were assigned from January 1979 thru May 1979 - which resulted in the indictments of ninety-two (92) subjects on numerous counts of Guns, Thefts, Drugs, Stolen Cars. Three (3) vehicles were seized as a result of drug buys and approximately \$60,000.00 in precious metals. At one time, the stolen merchandise was arriving at "Sting" headquarters before the thefts were reported to the local police department. The Detective at the local police department would be notified and wait for the people to report property missing and the case was solved. The intelligence gathered and given to the precious metals' firms in the Attleboro- North Attleboro area could be calculated to save these firms millions in thefts. The Undercover Agents learned numerous ways the Security Guards, employees and other people were getting the metals out of the factories. With an ounce of Gold worth approximately \$290.00 per ounce, the thefts mount up extremely fast.

N A R C O T I C S S E C T I O N

ACTIVITIES July 01, 1978 to June 30, 1979 - continued ----

NARCOTICS:

B.) Undercover Troopers made numerous buys for DEA in Massachusetts and New Hampshire - which lead to State and Federal Indictments for the Manufacture and Distribution of PCP along the East Coast from Virginia to New Hampshire. The subjects involved in this case were extremely dangerous and were also involved in selling guns. Approximately thirty (30) people were picked up and arrested in this operation which were dealing drugs that amounted to millions of dollars.

D.I.U. UNIT:

A.) During July 1978, information received that a pharmacy, possibly connected to Organized Crime, was distributing narcotics illegally. Members of the DIU obtained a Search Warrant and upon entering premises, - discovered behind the counter a 357 Magnum with numbers removed, mask and stolen M/V reg. plates. A long six month investigation resulted in the two (2) pharmacists being indicted and seven (7) dentists surrendering their DEA License to write prescriptions in lieu of prosecution. According to the Drug Enforcement Administration, this case is the largest known surrender of Dentists Surrendering Licenses from one investigation. The two primary officers involved will get Special Recognition from DEA when this case is completed. The seven (7) Dentists have surrendered and Pharmacists are awaiting trial.

B.) Officers at the DIU were checking order forms (222C) for Doctors and discovered one doctor had ordered 18,000 Dilaudid within a six (6) month period. Subsequent investigation revealed the Doctor could not account for the Dilaudid and informant stated that the Doctor was selling the Dilaudid by the bottle. A bottle of one hundred (100) Dilaudid cost approximately \$18.00 in a drugstore. The same Dilaudid sell on the street illegally for \$25.00 to \$30.00 per dosage unit. A bottle of 100 Dilauidids returns \$2500.00 to \$3,000.00 per bottle.

Smuggling Unit:

A.) July 1978, Sandwich, Mass. A combined operation was under way in Hyannis when ten (10) ton of Marijuana was unloaded on Cape Cod Canal. Federal, State and Local Police had some of these subjects under observation, and as a result - officers were able to indict people involved that were not at this off-load site. The intelligence gathered in advance was extremely valuable and continues to be valuable as the backers of this operation are still in the Smuggling Business. The "MISS ALBRO", 150 ft. converted freighter, worth 1.5 million dollars brought in thirty (30) ton of Marijuana prior to its seizure and is associated with the Sandwich, Mass. Seizure. Seized in this operation were two (2) boats and ten (10) tons of Marijuana. Value of approximately \$10,200,000.00. - Eight (8) arrests.

B.) Seizure in Plymouth, Mass. - September 1978. Subjects arrested on the boat were involved with another vessel on Cape Cod 1975. Intelligence gathered by Federal, State and Local Police indicated this was

N A R C O T I C S S E C T I O N

ACTIVITIES July 01, 1978 thru June 30, 1979 - continued ---

Smuggling Unit: - continued

(B.) ... an independent operation. Seizure of five (5) tons of Marijuana, one (1) boat and two (2) trucks = value \$5,200,000.00 and six (6) arrests.

C.) November 1978 - State Police received information that the vessel "TWO JIMS" would be involved in Smuggling. Information given to Federal, State Police (NESPAC members) and Local Police. In May 1979, vessel "TWO JIMS" seized in New Hampshire after unloading approximately twenty (20) tons of Marijuana, and New Hampshire State Police confiscated \$113,000.00 in cash at the scene. Several arrests.

HIGHLIGHTS OR EXPANSION:

The enclosed material demonstrates the immediate need for more personnel. During the past five (5) years, the Narcotics Section went from over twenty (20) Troopers - and the D.I.U. from seventeen (17) down to a combined total of twenty (20) people and expanded duties. We now have Organized Crime deeply involved in Drug Traffic along with the White Collar people - such as Doctors, Lawyers, Business Executives etc. involved. The requested number of personnel for 1980-81 are the minimum personnel needed to do the job. Another important factor is Florida, Maine and several other states have increased penalties for drugs, - which now makes Massachusetts more desirable as the State to receive Smuggled Drugs.

Intelligence data collected -

Number of cases expended over a one year period - 111.

Cases prepared for other jurisdictions -

Total value of seizures and assets:

HRL/du

Heroin - 1.5 million dollars in seizures

Cocaine - 1.5 million dollars in seizures

Heroin - 1.5 million dollars in seizures

Heroin - 1.5 million dollars in seizures

Heroin - 1.5 million dollars in seizures

On any other article or item seized during said investigations.

DISTRICT ATTORNEY'S OFFICE
SUPERIOR COURT HOUSE
DEDHAM, MASSACHUSETTS 02026

August 17, 1979.

TO: Major John P. Regan
FROM: Detective Lieutenant Robert R. Masuret
SUBJECT: Annual Report

The following is in reference to Fiscal T.T. Item
H2349, File 14-B sent out on July 31, 1979:

Total number of cases - 193
Total number of arrests - 44
Total number of closed cases - 69
Total Number of open cases - 124

Money confiscated and turned over to the State
Treasury - \$75,000.

Total amount of fines occurred during said investigations-00
Assistance to federal agencies - 1
Assistance to local police - 99
Intelligence data collected - 2

Number of cases extended over a one month
period--115.

Number of buildings inspected for the Fire Marshal-3
Cases prepared for other Jurisdiction - 6

Total value of contraband seized:

- (1) narcotics - 1/2 million dollars in narcotics
- (2) Motor Vehicles - 1 Ford Econoline Van \$8,000
- (3) Antiques - Foreign Museum coins 6 million dollars
- (4) Hi-jacking items 0
- (5) Boats or aircraft 0
- (6) Or any other article or item seized during said investigations 0

Following are five cases investigated by this unit in the past year:

1. In May of 1979, Ali Majidi, an Iranian student, was brutally stabbed and murdered by four youths in Brookline. Cooperative investigation conducted by this office and the Brookline Police Department resulted in the arrest and subsequent indictment of four subjects.
2. In May of 1979, Norfolk County State Police Investigators, along with officers from several area towns, conducted raids on the South Shore which resulted in the confiscation of nearly \$500,000 in L.S.D. and narcotics and seized \$75,000 in United States currency.
3. On October 29, 1978, Walpole State Prison inmate Edward Richards was found dead in his cell, the victim of knife wounds and strangling. Norfolk County State Police Investigators conducted a comprehensive search of the crime scene and the discovery of valuable evidence. This investigation resulted in the indictment of three inmates presently awaiting trial.
4. In September 1978, the murder of 12 year old Diane Devanna was investigated by this office. Diane Devanna's father and step-mother were arrested for the murder and subsequently plead guilty and have been incarcerated.
5. On February 2, 1979, Norfolk County State Police investigators, with the assistance of the Cohasset Police Department, executed a search warrant at 6 Margin Street in the Town of Cohasset. As a result of this raid in the early morning hours, over \$250,000 worth of stolen art, rugs and other home furnishings were recovered as well as drugs and drug paraphernalia. Two subjects residing at the house were arrested and numerous house breaks throughout Southeastern Massachusetts were solved.

CPAC UNIT - PLYMOUTH COUNTY

TROOP D HEADQUARTERS

MIDDLEBORO, MASSACHUSETTS 02346

(617) 947-7191

COMMANDED BY

DETECTIVE LIEUTENANT ROBERT J. ZULLAS

The CPAC Unit in Plymouth County consists of five (5) detective lieutenants, one (1) sergeant and six (6) troopers. This unit reports to the Bureau of Investigative Services and maintains offices at Troop D Headquarters in Middleboro and at the Superior Courthouse in Brockton.

This unit was established as a pilot program in June of 1972. The purpose of this unit is to provide the District Attorney of Plymouth County with greater investigative capability in the course of fulfilling his obligations as the chief prosecuting officer of the county and to insure the expertise and manpower necessary to properly investigate homicides and other serious offenses. Another function is to provide the District Attorney with the means to originate investigations in the area of narcotic violations and organized crime.

A particular goal is the investigation and prosecution of long standing, continuing criminal activity which local authorities are aware of but have been frustrated in their efforts to investigate successfully due to more pressing demands upon their existing manpower. The efforts of the local authorities have been stymied due to the fact that some of this criminal activity has become firmly entrenched, and the persons involved are familiar with local personnel and investigative procedures.

Another function of this unit is to provide a staff of experienced investigators which can be shifted to another jurisdiction under an emergency situation or to assist in an extraordinary effort.

The flow of activity is generated from four sources:

1. Complaints or information to the office of the District Attorney.
2. Complaints or information reported to the Uniformed Branch of the State Police or the twenty-seven (27) local police departments located in Plymouth County.
3. Original cases which are developed as the result of a particular officer's knowledge or his sources of information.
4. Complaints or information relayed from the Bureau of Investigative Services or various other agencies (Attorney General's office, Out of State Police organizations, Federal authorities, etc.)

Summary of activity of the CPAC Unit - Plymouth County
for the period July 1, 1978 through June 30, 1979

Total number of cases investigated	183
Total number of arrests	131
Total number of closed cases	92
Total number of open cases	91
Monies confiscated	\$ 7,286.80
Amount of fines as the result of investigation	\$ 64,500.00
Assistance to Federal Agencies	8
Assistance to local police departments	84
Intelligence data collected	16
Number of cases extended longer than a one month period	98
Cases prepared for other jurisdictions	7
Value of contraband seized	
(a) Narcotics	\$ 85,235.00
(b) Motor Vehicles	\$ 506,000.00
(c) Antiques	\$ 200.00
(d) Other miscellaneous items of contraband	\$ 8,065.00

and are for a one year period for two counts of kidnapping.

Following is a summary of some of the cases this unit has investigated during the fiscal year 1979.

1. On October 8, 1978, the unidentified body of a male youth was found stabbed and mutilated (the penis had been removed) in a wooded area near Maple Park in Wareham. As the result of an intensive investigation conducted concurrently with the Wareham Police Department and State Police personnel assigned to Troop D, the victim was identified as Richard P. CARR, age 22, of Brockton. Subsequently, Ronald G. HENDRICKEN, age 23, of Fall River was apprehended, charged with the offense, convicted, and is now incarcerated.

2. On November 16, 1978 at 10:20 p.m., Paul R. Sellstone, Manager of a supermarket in Randolph, arrived at his home at 12 Bridge Street, Bridgewater and was confronted by a masked individual wearing coveralls. The individual forced Mr. Sellstone, at the point of a .357 Magnum revolver, to enter his home and held Sellstone and his wife in the house, under threat of harm. There were two young children asleep in the house during this period.

The individual left the home at midnight in the Sellstone's car with Mrs. Sellstone as a hostage at gunpoint. The individual and his hostage traveled through Bridgewater, West Bridgewater and Brockton, pursued by police of the local departments; and finally, the vehicle became disabled in West Bridgewater Square.

Negotiations were conducted for a four-hour period by local police officers trained in hostage techniques, and the suspect was finally shot in the chest by a member of the State Police STOP team.

The suspect recovered and a follow up investigation was conducted by members of the CPAC Unit, the Uniformed Branch of the State Police and officers from the various local departments.

Donald P. Johnson was prosecuted, convicted, and sentenced on March 13, 1979 to MCI Walpole for not less than 18 nor more than 30 years for two counts of armed invasion of a dwelling house and not less than 9 years nor more than 10 years for two counts of kidnapping.

3. On November 6, 1978, Bernard D. MacMAHON was dead on arrival at the South Shore Hospital as the result of gunshot wounds. It was determined through an investigation conducted by officers from the CPAC Unit, jointly with the Hanover Police Department, that he had been shot at his home by his wife, Charlotte MacMahon.

The investigation eliminated the defenses of accidental shooting and self-defense and Charlotte MacMahon was subsequently convicted of the homicide. The State Police Ballistics Bureau and troopers assigned to the State Police Photo-Lab were particularly invaluable in this investigation.

4. During the months of May, June and July of 1978, a joint investigation into narcotics activity in Brockton was conducted by the CPAC Unit and the Brockton Police Department. The services of an undercover officer assigned to the State Police Narcotics Unit were utilized during this investigation.

As a result of this investigation, evidence was presented to the Plymouth County Grand Jury and raids were conducted on August 1, 1979 resulting in the arrest of eighteen (18) subjects for the sale and distribution of narcotics.

5. Beginning in September of 1978, an investigation of organized gambling activities was conducted in the City of Brockton. A trooper assigned to the CPAC Unit, acting in an undercover capacity, penetrated the group controlling the gaming activity to the extent that he was employed as a bookmaker by the subject in charge of the group.

The investigation was continued and probable cause was established to warrant the issuance of a court order to conduct electronic surveillance.

As the result of evidence obtained from the wiretap, search warrants were issued for thirteen (13) locations in five (5) counties, as far north as Somerville and Revere and as far south as New Bedford. The locations which were the subjects of the search warrants were high-level bookmaking offices and it is estimated that revenue flowing through these offices was in the area of a million dollars yearly. (A subsequent investigation revealed that one bettor, an officer of a savings bank in Whitman, embezzled over \$100,000 and paid it into this operation).

The evidence obtained as the result of the undercover investigation, the wiretap, and the service of the search warrants was presented to the Plymouth County Grand Jury and subsequently twenty-five (25) subjects were taken into custody and arraigned. The cases are now pending before the Superior Court at Plymouth County.

6. In the spring of 1979, an investigation was conducted by officers of this unit in conjunction with Norfolk County District Attorney's office and the United States Postal Inspectors into an organized group involved in the larceny of motor vehicles and fraudulent insurance claims. Evidence was obtained which was the foundation for search warrants in twelve (12) locations, including auto junkyards and used auto part establishments.

Evidence was presented to the Grand Jury resulting in the indictment of fifteen (15) defendants. The investigation is continuing and more indictments and arrests will follow.

The estimated value of the motor vehicles involved in this unlawful activity, based upon the recovery of parts of these vehicles, is \$400,000.

Bureau of Investigative Services
Special Service Section
450 Worcester Road
Framingham, Mass. 01701
Commanded By
Sergeant Charles F. Henderson

1. Currently there are ten (10) officers assigned to the Special Service Section.
2. The Special Service Section is charged with enforcing all the laws regarding illegal gaming, prostitution and other vice related matters. The section also assists local police agencies in gaming investigations and is often called upon to testify as expert witnesses in the various courts of the Commonwealth.
3. The following is a report of the activities of the Special Service Section from July 1, 1978 thru June 30, 1979:
 1. Total of Arrests 126
 2. Total of Cases 128
 3. Total of Closed Cases 109
 4. Total of Open Cases 19
 5. Monies confiscated and turned over to the State Treasury \$24,327.32
 6. Fines occurred in various courts throughout the Commonwealth \$246,987.00
 7. Officers testified 15 times as expert witnesses for various Local Police Departments.
4. During the past year many successful gambling cases have been brought forward against several of the "King Pins" of Illegal Gaming, some with Organized Crime affiliations. This has been accomplished in several different ways.

The first being the use of Court Ordered Electronic Surveillance. In every single instance the cost of using a "Wiretap" has been more than justified when you compare the cost of the investigation with the fine levied and monies confiscated. For example, "Operation Katch" an Electronic Surveillance that took place in Hampden, Hampshire and Worcester Counties, cost a total of approximately \$25,000.00. A total of \$101,000.00 in fines and monies were forfeited to the Commonwealth. This investigation resulted in the arrest and convictions of the higher echelon in their respective counties. Such notables as Michael and Myron Petrowicz, Frank Kretchmar,

Ardivast Kurtigian, Paul Mahoney and Joseph Sullivan just to name a few.

"Operation Grand Slam" was a joint State and F.B.I. venture in which a total of \$150,000.00 in fines were levied and the following individuals Larry Baione, Sonny Baione, Abe Sardin, Mel Burger and Gennaro Angiulo were convicted on gaming related charges.

"Operation Laundry Check" identified a 250 million dollar gaming operation entrenched on the Eastern seaboard which resulted in the identification of individuals such as Edward Lewis, James Katz and Richard Wilgoren.

"Operation Aardvark" which was just successfully completed identified such notables as John Marquardo, Joseph Yearardi, Joseph Collucci, James Ciccarello, John Ruscio and Edgar Frugerson as the heads of large scale bookmaking offices operating whith in the greater Boston area. These cases are still pending in Middlesex and Suffolk Superior Courts.

"Operation Lighting" was a wiretap that took place on the South Shore which resulted in \$170,000.00 in fines and jailing of John Mortorana, James Timility, and Richard O'Brien.

Aside from the wiretaps there have been numerous gaming arrests this past year throughout the Commonwealth that were a result of excellent investigative procedures and the individual effort of each member.

For instance, formulated in the four Western Massachusetts Counties several gaming investigation have been completed by officers of the Special Service Section in conjunction with the Federal Bureau of Investigation in which the following principals in Illegal Gaming Organized Crime activities were arrested on a variety of gaming violations:

1. Daniel J. Sacco
2. Ciro V. Rovelli
3. Andrew T. Torino
4. Lawrence E. Stone
5. Anthony J. Santaniello
6. Francesco J. Scibelli
7. Anthony L. Maloni
8. Louis Publiano
9. Adolfo Bruno
10. Roger Sala
11. John P. Gagliardi- Medford/Pittsfield
12. Nicholas A. Santaniello

Just to elaborate a little further an intensive gaming investigation was just completed in the Lowell, Lawrence area at a request from the District Attorney. As a result nine gaming raids were conducted which resulted in the arrests of numerous bookmakers that have been virtually untouched for over twenty years.

STATE OFFICE OF INVESTIGATIONS
Room 1301, 1 Ashburton Place
Boston, Massachusetts 02108
(617-8072)

COMMANDED BY

CAPTAIN OF DETECTIVES PETER W. AGNES

The State Office of Investigations was formed in 1976, its purpose being to have within state government a unit which could be available to the various state agencies to investigate allegations of corruption in state government.

The establishment of this office filled a gap in administrative oversight of the activities of state employees. It created a small agency capable of examining and reporting on allegations of misconduct ranging from criminal activities to minor administrative malfunctions in the workings of government.

Since the establishment of this office and as a result of their investigations, there have been a number of criminal indictments and administrative penalties, including fines, resignations, and suspensions without pay.

Its investigations have not only proved substantive allegations but have also cleared the names of people unjustly accused.

These investigations have also provided the Executive Branch with the opportunities to make managerial guidelines for state agencies and state employees more precise and less open to misinterpretation.

The following page summarizes the activities of the State Office of Investigations and indicates the assignment of personnel.

STAFF

- 1 Captain of Detectives
- 2 Detective Lieutenant Inspectors
- 2 Troopers
- 1 Senior Clerk-Typist

ACTIVITIES (JULY 1, 1978 THRU JUNE 30, 1979)

Cases Opened	-	288

The Commonwealth of Massachusetts

Department of Public Safety

CPAC

283 Main Street, Worcester, Mass.

August 14, 1979

To: Lt. Col. John R. O'Donovan
Office of Investigations & Intelligence Operations

From: Ralph F. DeFuria, Detective Lieutenant

Subject: Budget Information - Annual REport
for CPAC Worcester

1. In reference to Fiscal TT 2349 File 14B dated 7-31-79, the following is the work load for CPAC Worcester for Fiscal 1978-1979 and is provided as a basis for the budget request for Fiscal 1981:

<u>Work Unit</u>	<u>Work Load Per Mo.</u>	<u>Hours per Man Per Mo.</u>
No. of Cases - 338	28 per mo.	150
No. of Arrests - 197	17 per mo.	20
No. of Closed Cases - 253	21 per mo.	
No. of Open Cases - 85	7 per mo.	

During the previous fiscal period approximately \$10,000. was confiscated and turned over to either the State Treasury or the State Tax Bureau.

An equal amount of fines were levied on defendants by the various courts as a result of CPAC cases.

Federal Agencies were assisted an average of 4 to 5 times per month. Local Police received assistance from this office almost daily. Intelligence data was collected and disseminated to other agencies on a weekly basis.

Five to seven cases per month required extensive investigation in excess of a thirty day period.

Officers assigned to the office of the State Fire Marshal out of CPAC Worcester inspected approximately five warehouses during the previous fiscal year.

Officers assigned to CPAC Worcester are the representatives of the District Attorney for Worcester County and as such are constantly involved with other agencies in the preparation of cases for Grand Jury and other judicial proceedings. In four instances during the previous fiscal year deaths were prepared for inquests.

The value of contraband seized as the result of investigations by this office during the previous fiscal year is as follows:

Narcotics	\$30,000
Motor Vehicles (includes semi-trailers & tractors)	\$150,000.
Antiques	\$20,000
Other items	\$5,000.

Respectfully submitted,

Ralph F. DeFuria
Detective Lieutenant
Massachusetts State Police

POLYGRAPH UNIT
ONE ASHBURTON PLACE, ROOM 1310
BOSTON, MASSACHUSETTS
(617) 227-3723

PETER L. DESTEFANO
DETECTIVE-LIEUTENANT
POLYGRAPHIST

The Polygraph Unit administers tests for the Department of Public Safety, all Federal, State and local law enforcement agencies upon request. Courts and prosecuting attorneys have requested testing, which has been provided.

During the past fiscal year, 222 persons were scheduled to be examined by polygraphic technique, 79 Scheduled examinations were cancelled, or failed to appear for their appointment, or declined to be examined after appearing at the Polygraph Unit. Six examinations were terminated due to the examinee being unsuitable for testing at that time. Of the 137 persons examined, 29 were for grand larceny, 11 were for murder or suspicious deaths and 8 were for arson. Of the 79 cancellations and/or no-shows, 11 were for murder and 26 were for arson. The remaining examinations conducted were in the criminal investigations of armed robbery, assaults, kidnapping, rape, bomb threats and extortion.

Six hundred and eighty five hours were expended in the administration of the completed examinations. Nineteen court appearances directly resulted from these examinations.

The Polygraph Unit is represented in the American Polygraph Association, the American Association of Police Polygraphists and the Massachusetts Association of Polygraph Examiners.

The unit participated in a five day, advanced polygraph techniques seminar, conducted by the American Association of Police Polygraphists, at Omaha, Nebraska during April of 1979.

DEPARTMENT OF PUBLIC SAFETY

DIVISION OF INSPECTION

ANNUAL REPORT

1978-1979

DESIGNATION: The Commonwealth of Massachusetts
Department of Public Safety
Division of Inspection
One Ashburton Place, Room 1301
Boston, Massachusetts 02108

CHIEF: John K. Olsen, Chief of Inspections

SUB-DIVISIONS: Building Inspection Section
Engineering Section
Elevator Inspection Section
Life Safety and Physical Environment Surveying Unit

ASSIGNED

PERSONNEL: 1 Chief of Inspections
1 Administrative Assistant to Chief of Inspections

Building Inspection Section:

2 Supervisors of Plans
31 State Building Inspectors (3 vacant; 1 LOA)
1 Head Clerk
1 Principal Clerk
1 Storekeeper

Engineering Section:

1 Supervising District Engineering Inspector
25 District Engineering Inspectors (5 vacant)
1 Adm. Asst. to Sup. Dist. Eng. Inspector
1 Principal Clerk
2 Jr. Clerk and Stenographers

Elevator Inspection:

1 Supervising Elevator Inspector
10 Elevator Inspectors:
7 Permanent
3 Temporary
7 Examiners of Elevator Operators (4 vacant)
1 Recreational Tramway Examiner, Temporary
1 Jr. Clerk & Typist

Life Safety & Physical Environment Surveying Unit
(Title XVIII and Title XIX):

1 Associate Civil Engineer, Supv. in Charge
3 Associate Civil Engineer, Sup. (Title XIX)
1 Associate Civil Engineer, Sup. (Title XVIII)
19 Senior Civil Engineers (1 vacant)
1 Principal Clerk
3 Senior Clerk & Stenographers
2 Jr. Clerk & Typist (2 vacant)

STATEMENT OF

PURPOSE:

The general purpose and responsibility of this law enforcement agency is to provide for the inspection of public facilities, buildings, structures, tramways, elevators, nuclear reactor vessels, power pressure vessels, hoisting equipment, air tanks, refrigeration and air conditioning equipment, ammonia systems, large storage tanks for fluids other than water, amusement devices, oil burner equipment, etc., and examinations of applicants for licenses incidental to the operation of certain of the afore-mentioned facilities.

Office and field enforcement personnel, assisted by administrative personnel carry out the mandates of the statutes. Priorities are given to items having the greatest danger factor.

The effectiveness of the operation is reflected in the decreasing number of accidents through using these facilities as compared with the rapidly-increasing number of units being built and maintained in the Commonwealth.

The objective of the program is to insure continuing safety to life and property through supervision and inspection of the units outlined above.

ACTIVITIES:

The activities of the Division will be found in the attached reports submitted by each of the sections of the Division of Inspection: Building Inspection, Engineering, Elevator Inspection. Life Safety and Physical Environment Surveying Unit has filed separately.

HIGHLIGHTS OF

ACTIVITIES:

The highlights or expansion of activities are included in the reports submitted by the four sections.

DEPARTMENT OF PUBLIC SAFETY

DIVISION OF INSPECTION

BUILDING INSPECTION

ANNUAL REPORT

1978-1979

DESIGNATION:

The Commonwealth of Massachusetts
Department of Public Safety
Division of Inspection
Building Inspection
One Ashburton Place, Floor 13
Boston, Massachusetts 02108

CHIEF:

John K. Olsen, Chief of Inspections

IN CHARGE AND
COMMAND OF:

James W. Cosgrove, Supervisor of Plans
Joseph F. Kelleher, Supervisor of Plans

ASSIGNED
PERSONNEL:

2 Supervisors of Plans
31 State Building Inspectors (3 vacant; 1 LOA)
1 Head Clerk
1 Principal Clerk
1 Storekeeper

STATEMENT OF
PURPOSE:

The primary purpose of this law enforcement section is to carry out the mandates of the statutes and to employ the complement authorized by the Legislature to better ensure the safety of the countless millions of persons using the building and structures of this Commonwealth through supervision as well as inspection of all types and classification of buildings and structures.

STATEMENT OF PURPOSE (continued):

Supervisors of Plans:

The supervisors of plans are in charge and command of and responsible for the proper performance of the duties of the state building inspectors and employees detailed to the building inspection section.

They examine and review plans in conjunction with inspectors, which are submitted for their approval by architects and engineers. They look for the plans' compliance with all safety rules and regulations and the state building code in both new buildings and those to be altered, which are under the jurisdiction of the department.

They insure the safety of the public insofar as it is affected by building construction, through structural strength, adequate egress facilities, sanitary conditions, equipment, light and ventilation, and fire safety as it applies to design, erection, repair, removal, demolition, or use and occupancy of buildings, structures, or premises.

The supervisors serve on a continuing basis on regulatory and appeals boards, and on special assignments when so designated. They provide advice and technical assistance to both state and local inspectors, and others involved in the building profession.

State Building Inspectors:

The inspector enforces the state building code as to any building or structure within any city or town which is owned by the commonwealth, or any departments, commissions, agencies, or authorities of the commonwealth. He also enforces the code as to all hospitals, clinics, nursing, convalescent, and rest homes. He inspects for structural safety, exit safety, and fire prevention standards. He issues certificates of inspection or orders correction of violations in writing, and initiates prosecution for failure to comply.

He reviews all plans for construction or modification to any building under his jurisdiction, and issues the necessary approval if satisfactory, or recommends changes where required.

The inspector may review any order or decision of a local inspector. He supervised the enforcement of the building code, makes periodic reviews of all local building inspection practices, and makes recommendations for the improvement of such practices. He also provides technical assistance and advice to local building officials.

He may, with the approval of the Commissioner, temporarily fulfill the duties of a local inspector for a period not to exceed 30 days. If called upon by the selectmen of a town or the aldermen of a city, the inspector may inspect any building or structure or anything connected therewith, which has been represented to be dangerous to life or limb. If he finds the structure to be dangerous, he may cause it to be removed or rendered safe.

An inspector recommends approval or disapproval of manufacturing facilities and plans for the units produced by modular home manufacturers, before these units may be installed in the commonwealth. He investigates all complaints regarding modular and mobile homes.

STATEMENT OF PURPOSE (continued):

State Building Inspectors (continued):

He also examines applicants for licenses to operate motion picture machines and enforces the laws and regulations relating to the operation of such machines. He also inspects the construction, use, and certification of all motion picture booths.

The inspector also serves, when so assigned, on specialized regulatory boards, and assists in the formulation of any changes in the basic code.

At the direction of the Governor, or the Commissioner of Public Safety, the inspector shall serve in emergency temporary duty in the State Police to preserve peace, suppress riots, or other special related works.

ACTIVITIES:

The activities of this section, which have been greatly restrained by the budgetary constraints imposed by the legislature, will be found in the attached statistical reports. As previously noted, we are currently four inspectors short of our authorized complement, and with two men scheduled for retirement in the current year will be further limited in the performance of our statutory responsibilities, unless all these positions are filled.

HIGHLIGHTS OF ACTIVITIES:

In preparation of the publication of the third edition of the state building code, effective June 1, 1979, our inspectors and supervisors were required to spend endless hours supplying their expert testimony based upon knowledge and experience, to assist in the formulation of a workable and understandable code, which hopefully will not be immediately subject to countless revisions.

The new edition of the code also precipitated a multitude of questions from engineers, architects, and local officials who require clarification of current standards, and advice on compliance with these standards.

We were fortunate to have three well-qualified inspectors added to our staff. The inspectors still required and will continue to require a good deal of supervisory and educational support.

An opinion of the Attorney General, subsequently confirmed by the Superior Court and being contested in the Supreme Court, has made the inspection of all M.B.T.A. facilities, and consequently all other authorities of the Commonwealth, the responsibility of this section.

Engineering Section, Division of Inspection
John W. McCormack Building, One Ashburton Place
Boston, Mass. 02108

July 31, 1979

To: Research and Development Unit (thru channels)
From: William H. Dormer, Jr., Supervising District Engineering
Inspector
Subject: Annual Report

1. In accordance with memorandum dated July 9, 1979 from Commissioner Dennis M. Condon, following is the information requested for enclosure in the Department of Public Safety's Annual Report:

Section: Division of Inspection, Engineering Section, John W. McCormack Building, One Ashburton Place, Boston, Mass. 02108

Commanded By: William H. Dormer, Jr., Supervising District Engineering Inspector

Assigned Personnel: 1 Supervising District Engineering Inspector, 20 District Engineering Inspectors, 1 Administrative Assistant to the Supervising District Engineering Inspector, 1 Principal Clerk, 2 Junior Clerk-Stenographer (vacancies, 5 District Engineering Inspectors)

Statement of Purpose: Inspect boilers, air tanks, refrigeration/air conditioning systems, hot water systems, nuclear power plants, amusement devices, aboveground tanks. License engineers, firemen, hoisting machinery operators, oil burner technicians, nuclear power plant operators, inspectors employed by insurance companies to inspect pressure vessels and amusement devices, pipefitters and refrigeration technicians. All of which are important to the safety of the public.

Activities July 1, 1978 thru June 30, 1979: The grandfather clause on licenses for Refrigeration Contractor and Technician expired on June 30, 1979. As of that date, a total of \$354,560 was received as revenue from the grandfather clause of the Refrigeration law.

The Engineering Section monitored for the National Board of Boiler and Pressure Vessel Inspectors, the following examinations: 7 National Board, 2 Ultrasonic, 1 General Quality Control, 4 Inservice Inspection and 3 Nuclear (Concrete).

Twenty-five individuals passed the Massachusetts Certificate of Competency examinations held by a board of three inspectors.

No other rules and regulations will be put into effect as it is impossible to perform the duties required of the Engineering Section at the present time due to the existence of five District Engineering Inspector vacancies.

Annual Report for the Period of July 1, 1978 to June 30, 1979 - Board of Boiler Rules.

During this fiscal year, seven meetings were held by the Board of Boiler Rules. This included two statutory public hearings and two advertised public hearings, all of which were held in compliance with the requirements of Chapter 146, Section 3 of the General Laws, Tercentenary Edition, as amended, as well as Chapter 30 of the General Laws.

Fifteen petitions were presented to the Board of Boiler Rules, four of which were to allow nonstandard pressure vessels to become "Mass. Special." Five petitions were to allow the extension of boiler inspections. On two petitions it was determined that the pressure vessels were not boilers, one petition it was agreed that the air tank is covered by UM vessels and therefore does not come under the Board. One petition pertained to a variance from the rule concerning skating rinks and was granted. A decision was not reached on two petitions, they will be discussed at a future meeting.

As a result of two advertised public hearings, the following regulations were⁷ revised and updated to the American Society of Mechanical Engineers Boiler and Pressure Vessel Code 1977 and addenda to Summer of 1978:

- BLR-1, Part I of Steam Boiler Rules for Construction of Power Boilers
- BLR-1A, Part 1A of Steam Boiler Rules for Construction of Power Boilers, Power Reactor Vessels, Piping and Unfired Pressure Vessels in Atomic Energy Installations
- BLR-2, Rules for Steam and Hot Water Boilers and Heat Storage Sources
- BLR-3, Rules for Heating Boilers
- BLR-4, Part IV of Steam Boiler Rules for Construction of Low Pressure Heating Boilers
- BLR-5, Part I of Air Tank Regulations for Material, Design, Construction, Shop Inspection and Marking of Air Tanks
- BLR-6, Part II of Air Tank Regulations for Installation, Appurtenances, and Field Inspection of Air Tanks
- BLR-7, Refrigeration and Air Conditioning Systems
- BLR-8, Material Specifications
- BLR-9, Welding Qualifications
- BLR-11, Fiberglass - Reinforced Plastic Pressure Vessels

One new regulation was adopted:

- BLR-12, Rules for Inservice Inspection of Nuclear Reactor Coolant Systems

A total of twenty-one tanks were covered by permits issued by the Commissioner of Public Safety for the fiscal year July 1, 1978 thru June 30, 1979. These tanks will contain 23,219,860 gallons of various products. The breakdown is as follows:

4 tanks for the storage of Gasoline	10,280,000
2 tanks for the storage of #6 Fuel Oil	125,000
5 tanks for the storage of #2 Oil	8,378,860
2 tanks for the storage of Liquid Propane	48,000
3 tanks for the storage of Asphalt	4,288,000
<u>5 tanks for the storage of Motor Oil</u>	<u>100,000</u>
21 tanks	23,219,860

DEPARTMENT OF PUBLIC SAFETY
DIVISION OF INSPECTION
ELEVATOR SECTION
1978-1979
ANNUAL REPORT

DESIGNATION: Commonwealth of Massachusetts, Dept. of Public Safety
Elevator Section
McCormack State Office Building
One Ashburton Place, Room 1319
Boston, Massachusetts 02108

SUPERVISOR: Thomas J. Shortt

STAFF: 14 Men and One Supervisor (10 Inspectors, 3 Examiners,
1 Tramway License Examiner, 1 Junior Clerk)

STATEMENT OF PURPOSE: Public Safety as it pertains to the installation, operation and maintenance of Elevators, Escalators, Dumbwaiters and various other types of related equipment. Supervise the installation, witness annual tests, investigate accidents and license qualified persons to operate and install equipment.

We are the inspectors having jurisdiction in 324 Cities and Towns as well as all State Buildings, MBTA's, all State Authorities, Colleges, Courthouses, and some Federal Buildings, and privately-owned Post Offices. Also Tramway License onsite Operational Inspections and Licensing are handled in this section.

STATISTICS:

Elevators, Escalators & Dumbwaiters:

Placarded	14
Plans Filed	146
New Construction Inspection	288
Inspections (Tests)	5,163
Changes Inspected	1,091
Orders Issued	2,924
Certificates Issued	3,982

During this period there were 134 Elevators, Escalator and Dumbwaiter accidents reported to this section, Eight (8) of which were FATAL.

Operators Licenses Issued	1,220
Operators Licenses Renewed	1,442
Revenue derived from Elevator Operator Licenses both new and renewed	\$3,272.00

Revenue derived from inspections and new and existing elevators, escalators and dumbwaiters: \$58,981.00 (Total)

1978-1979 ANNUAL REPORT - ELEVATOR SECTION (Continued)

Tramway License Section

Tramway Licenses Issued 175 \$3,080.00

TOTAL REVENUE: \$3,080.00

Tramway Accidents reported to this section (70) Seventy. No Fatals

Elevator Maintenance and Repair Licenses Issued: 22

Renewal : 521

TOTAL REVENUE: \$5,810.00

DESCRIPTION OF ACTIVITIES: The Elevator Section has taken over the towns of Dedham, Reading and Rockland this past fiscal year. We also have a total of 288 new elevators under construction. On a temporary emergency basis we are still being called in to test elevators in Springfield. The totals are increasing and the inspection personnel is decreasing which creates an impossible situation. With the economy and depression there have been some problems in the construction industry, but everything being built is hi-rise or condominiums, so we will see an economic gain.

In the last four fiscal years we have lost four inspectors with only two replacements. Lack of men in the district, not covered, causes an unsafe condition to exist. We should have replacement immediately, for inspectors lost through death and retirement.

We show an increase in elevators placarded this year i.e., elevators shut down because of unsafe or dangerous condition, although we still suffer from lack of manpower in all of these districts where we show an increase in elevators placarded.

Also, where a Licensed Operator is working, we seem never to have a bad accident, and still continue to have Fatal accidents where there are no Licensed Operators.

Elevator Accidents show a decrease -- Our Fatal figure is more than last year, increasing by seven (7) over last year. I would like to stress that this is the accident total for the entire state not just State inspected elevators. Most of the accidents were on escalators and were of minor nature. I also believe that some Cities and Towns do not report and our figures are conservative.

We have again suggested to the Department to increase the various fees and again will request the Department file legislation to repeal Chapter 288 of the General Laws.

1978-1979 ANNUAL REPORT - ELEVATOR SECTION (Continued)

Looking to the future, this Section will need additional inspection personnel very soon as we will have to assume responsibilities for the inspections in several cities and towns that are starting to neglect elevator inspections, as their inspection department becomes more involved in other areas. We will need to set-up frequent seminars for our own personnel and others to keep them informed of changes on codes, regulations and other "exotic" type of elevator equipment coming into existence. The public is becoming more dependent on elevators; the Fire Departments' want to use them to evacuate in case of fire and other disasters which will mean a great deal of study and many new regulations. They are putting elevators in cities and towns now that never had them before. Our men are still \$150.00 behind pay to Elevator Mechanics in Industry which they supervise. Something will have to be done if we hope to maintain a qualified staff.

We will have to maintain a stronger liaison with the Fire Department Instructional Teams with all of the high rise elevators being constructed.

The Tramway Examiner organized three lift operator training seminars this past fiscal year as well as one technical seminar.

STATE BOXING COMMISSION
1 Ashburton Place, Boston, Ma. 02108
Room 1005

ANNUAL REPORT

Membership: During fiscal 1978-1979 State Boxing Commission members were:

Walter A. Byars, Chairman

Joseph C. Wright, Commissioner

James F. McCarron, Commissioner

Fred I. Lamson, Secretary

On May 31, 1979, Deputy Commissioner of Public Safety Fred Lamson, (the Secretary of the State Boxing Commission by statute), retired, leaving a vacancy in the office of Secretary.

Purpose: Established in 1920 to administer and regulate the conduct of boxing or sparring matches or exhibitions being conducted for a prize or a purse, or to which an admission fee is charged, either directly or indirectly. The mandate of the Commission encompasses both professional and amateur boxing activity.

Activities: During fiscal 1978-1979 the State Boxing Commission licensed and supervised the conduct of 21 professional boxing shows and 101 amateur boxing events. Amateur boxing activity increased significantly during this reporting period with approval being granted for 25 more shows than in fiscal '77-'78. Professional boxing activity remained stable.

Some of the outstanding events include a sensational one-round knockout by Number One ranked, middleweight Marvin Hagler of Brockton, Mass. over Sugar Ray Seales of Tacoma, Washington, the 1972 Olympic Gold Medal Winner. This bout was

televised nationally from the Boston Garden on February 3, 1979.

Sugar Ray Leonard of Baltimore, Maryland, another Olympic boxing champion (1976) made two appearances in boxing rings in Massachusetts during fiscal '78-'79; the first at Hynes Auditorium, Boston on July 18, 1978, against highly regarded local boxer Dick Ecklund and the second at Springfield Civic Center on December 9, 1978 against nationally ranked boxer Armando Muniz of California in a bout televised nationally by ABC Wide World of Sports. Sugar Ray Leonard was the winner of both of these bouts.

Outstanding amateur boxing events during the reporting period include the annual New England Senior Amateur Boxing Championships at the Boston Garden on April 9th, 1979 and the Eastern States Regional Boxing Championships at Holyoke, Mass. on April 20, 1979 which featured the top amateur boxers from the Eastern part of the United States.

Income: Income derived from state taxes on admission fees and television rights climbed from approximately \$19,900. in fiscal '77-'78 to about \$32,200. in fiscal '78-'79, an increase of approximately \$12,000. above the previous reporting period; likewise, income from fees for licenses, all sources, doubled due to fee increases on licenses sanctioned on July 1, 1978 by the Commissioner of Administration.

Legislation

The following proposed legislation was filed by the Commission during the reporting period:

- (a) H-169 a bill requiring a fee for issuance of Special Licenses - Amateur boxing
- (b) H-184 a bill barring issuance of a license as a promoter to any person convicted of a felony in the last 3 years prior to application for such license.
- (c) H-186 a bill calling for a fine of not more than \$200. for any unlicensed officials or boxer, manager, trainer, second or matchmaker; also barring the issuance of a matchmaker license to any person convicted of a felony in the last 3 years prior to application for such license.

On May 8, 1979 the Commission received notification from the House Clerk that the above 3 bills were given an adverse report by the Public Safety Committee.

New England Boxing Commissioners Compact:

The New England Boxing Commissioners continue to maintain mutual recognition of suspensions or revocations of licenses of boxers, seconds, managers, etc. Also, mutual exchange of pertinent information on boxers and boxing matters has continued despite no formal meetings due to lack of funds for travel.

The State Boxing Commission in Massachusetts also has close contacts with the leading boxing states in the nation by means

of bulletins and letters, these states include, New York, New Jersey, California and Michigan.

DEPARTMENT OF PUBLIC SAFETY
RECREATIONAL TRAMWAY BOARD
1978-1979
ANNUAL REPORT

DESIGNATION: Commonwealth of Massachusetts, Dept. of Public Safety
Recreational Tramway Board
McCormack State Office Bldg.
1 Ashburton Place, Room 1319
Boston, Mass. 02108

CHAIRMAN: Harold Morley

MEMBERS: Chairman plus four other members, one of which is the
Commissioner of Public Safety's Designee.

STAFF: 1 Tramway License Examiner
1 Hearing Stenographer

STATEMENT OF PURPOSE: Public Safety as it pertains to the Skiing public and their use of aerial tramways, lifts and tows. Drawing up, amending and enforcing Tramway Codes and Regulations; and as a result of new legislation, some control over downhill and cross country skiers. The Board's main purpose for being is to direct the State Ski Areas on a course of preventative accident procedures and to enforce the State Ski Code for the Skiing public's safety.

STATISTICS:

Tramway Licenses Issued:	175
Total monies derived from licensing:	\$3,080.00
Total Lifts registered:	217
Total accidents reported:	72
Full meetings of the Board:	11
Sub-Committee meetings:	6
Hearings: Variances & Regulations	19
Advertised	1
Lift Operator Training Seminars:	3
Maintenance Training Seminar:	1
Total Skiers using Mass. Lifts:	1,500,000 (down by one million skiers)
Total XC Skiers using Mass. Facilities:	35,000 (down by 50%)

DESCRIPTION OF ACTIVITIES: The full Board held eleven meetings this past fiscal year in Holyoke, Groton, Great Barrington, Charlton, Boston and Westford as well as six sub-committee meetings. One of these meetings was and advertised public hearing concerned with the formulating of the new Code. Nineteen hearings were held on twenty-two various type lifts concerning twenty-six code problems. Seventy tramway accidents were reported to the Board this fiscal year none of which were fatal. This is a decrease of 22 from last year, this could be attributed to the fact that this was the shortest and worst ski season in history. A complete breakdown of the accidents is available at the Board office. This past year we have had more than 1,500,000 skiers using Massachusetts facilities. We had one ski area close this past season specifically blaming the cost of insurance. On the other hand we had one of the areas re-open. Again this year three areas stayed open for the summer using one chairlift at each area in conjunction with the so-called alpine slide. Another area opened in June using a T-Bar for Grass Skiing. Three lift operator seminars were held in Pittsfield, Holyoke and Westford by the Board in conjunction with the Dept. of Public safety, Mass. Ski Area Operators Association and the Insurance Industry. These again were very successful and attended by over 359 lift operators.

The same group sponsored an extremely successful maintenance seminar in Great Barrington, the first of this type in the Country. Both Maintenance Men and their supervisors attended and the Top Engineers in the industry conducted classes. The Board is still hoping to overcome Budget restrictions and join the National Safety Association as a group. This is an absolute necessity to keep the Board aware of industry-wide changes. Board members attend various national and local gatherings relative to Ski Safety during the year, most of the time at their own expense. Many ski area owners and or managers have met with the board during the past year for advice and/or instructions relative to the proper safety procedures as it pertained to their areas. Legislation was passed this year charging the Board with drawing up regulations concerning both downhill and cross-country skiing. All of the new construction started last fiscal year was finished. This spring only two new T-Bars were scheduled to be started this summer. The Board has again requested that the Department hire a Mechanical Engineering Inspector to assist the Board. Overall, this was the worst Ski Season in recent history, no snow at all in Central or Eastern Massachusetts-snow in the Berkshires but extreme cold kept crowds down on several weekends. Also for some reason there were far fewer new skiers this year. Several municipal ski areas in Eastern Mass. without snow making failed to open at all due to conditions.

DEPARTMENT OF PUBLIC SAFETY

ANNUAL REPORT

DEPARTMENT: Public Safety

BRANCH OR SECTION: Architectural Barriers Board

ACCOUNT NUMBER: 8321-1000

MEMBERS: Chairman
Secretary of Public Safety Designee
Secretary of Elder Affairs Designee
Four members

STAFF: Administrative Secretary
Senior Clerk & Stenographer

STATEMENT OF PURPOSE:

1. The Board's purpose and the design of the Rules and Regulations is to make public buildings accessible to, functional for and safe for use by the physically handicapped persons.

DESCRIPTION OF ACTIVITIES:

1. Members participated in various workshops, conferences and training sessions regarding the Board's Rules and Regulations and the relationship of its Rules and Regulations to Section 504, Rules and Regulations of the Rehabilitation Act (HEW) of 1973 as further amended in April, 1977, in terms of physical accessibility.
2. Enforcement of the Board's Rules and Regulations has been accomplished with the aid from many areas: City and State Building Inspectors, by Board members and staff making on-site inspections and assistance through the Attorney General's Office, especially through litigation. Pending and resolved cases include Maxwell Silverman's Toolhouse, Ltd., and the Shawmut Plaza in Bellingham.
3. During Fiscal 1979, the Board conducted 40 regularly scheduled Monday meetings encompassing 174 hearings and 300 cases. Hearings involved: Restaurants, schools, apartment buildings, shopping centers, churches, libraries, office buildings, medical buildings, and hotels.
4. The Board also held 19 sub-committee meetings to inform local and state building inspectors, architects, engineers, and contractors, as well as the general public, of the Board's Rules and Regulations and to offer assistance and guidance where needed.
5. The staff gave technical assistance to architects, engineers, contractors, owners and the general public concerning the application of the Rules and Regulations in general, as well as in specific cases. On-site technical assistance was also provided in as many cases that the staff could accomodate. The staff handled approximately 1,000 incoming and outgoing letters, and an average of over 100 phone calls per week during construction seasons.

HIGHLIGHTS OR EXPANSION OF ACTIVITIES DEEMED SIGNIFICANT:

1. The Board has four new members since fiscal 1978. Also, a new secretary has been hired.
2. The Architectural Barriers Board would like to develop more "foot soldiers" trained by the Board to work in the field so that the Board could carry out its legislative mandate more effectively.
3. The Board would also like to hold meetings periodically, with local and state building inspectors, as well as other concerned and related persons, to disseminate information on the Board's Rules and Regulations and policies.
4. The Board is making every effort to inform the public that barrier-free design is advantageous to everyone and not to only one segment of the public.
5. The Board relies on citizens' complaints as a major source of business. There are many areas of the State from which the Board receives few complaints due to our lack of visibility. The Board, therefore, has started to explore ways to increase our visibility through brochures, copies of our Regulations, public service announcements, etc., and to make the activities of the Board more widely known. The Board estimates that compliance with our Regulations is 30% of what it should be, and we expect that the laws will be broken less frequently through these efforts.
6. The Board played a significant role with the Department of Mental Health and the court-mandated improvements at the state schools for the mentally retarded, in order to assure greater physical accessibility at these facilities.

DEPARTMENT OF PUBLIC SAFETY
